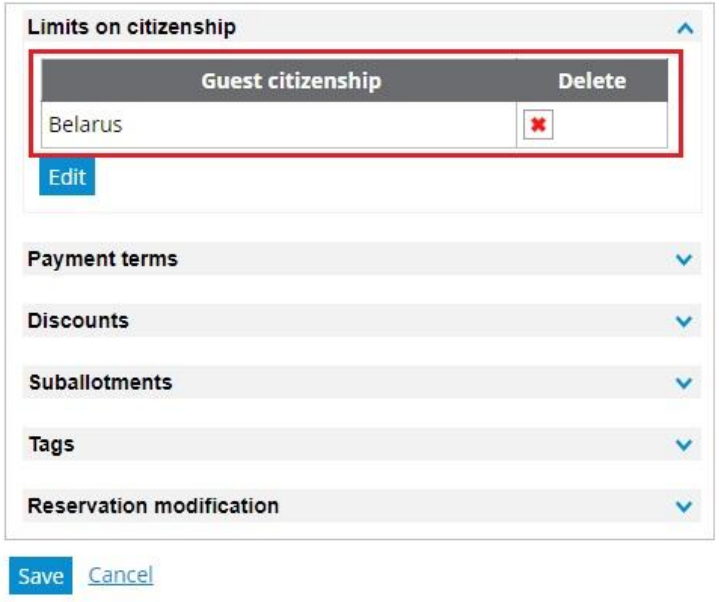
2. ENHANCEMENTS IN EXISTING MODULES

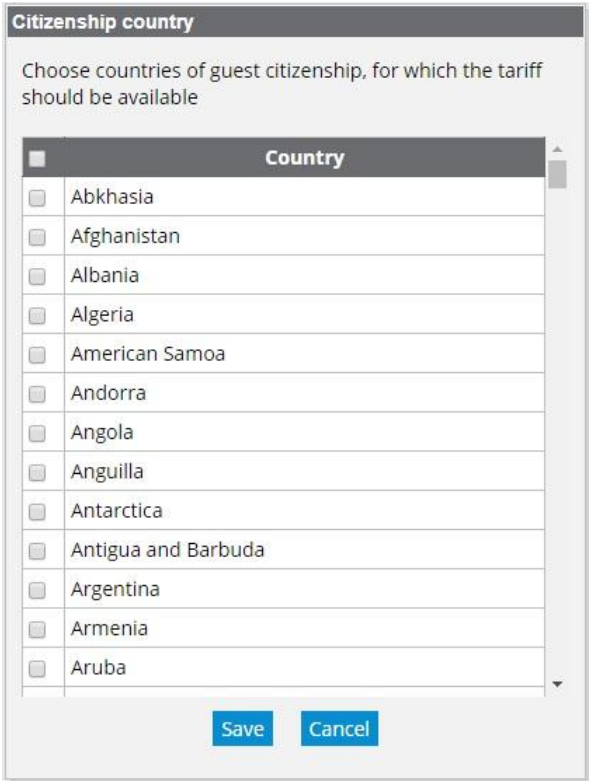
INVENTORY: LIMITS ON GUEST CITIZENSHIP FOR SELFOPERATED HOTELS

Some hotels offer different prices for customers depending on the client's citizenship. Such functionality was implemented in new release. Now you can customize on the search results the availability of a particular tariff for selfoperated hotel, depending on the specified nationality of the guest.

Access:

✓ **Selfoperated hotel >> Tariffs**



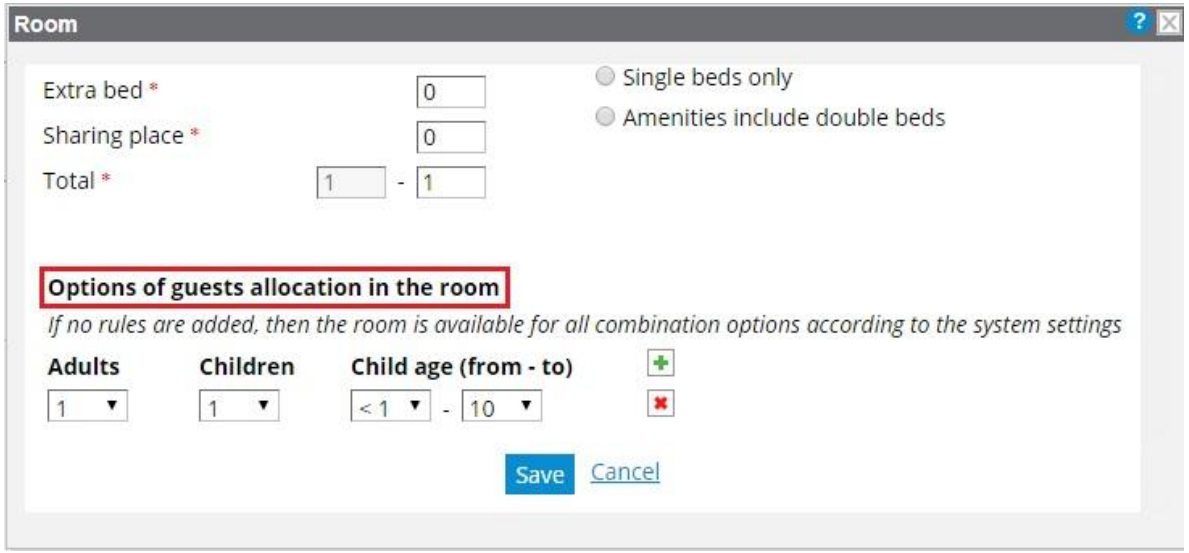


INVENTORY: OPTIONS OF GUESTS ALLOCATION IN THE ROOM

The ability to configure accommodation options for children and adults in the room has been added. Now while creating your own hotel, you can specify the acceptable number of guests: children and adults separately. Also, for children, you can specify the age.

Access:

- ✓ **Selfoperated hotel >> Description**



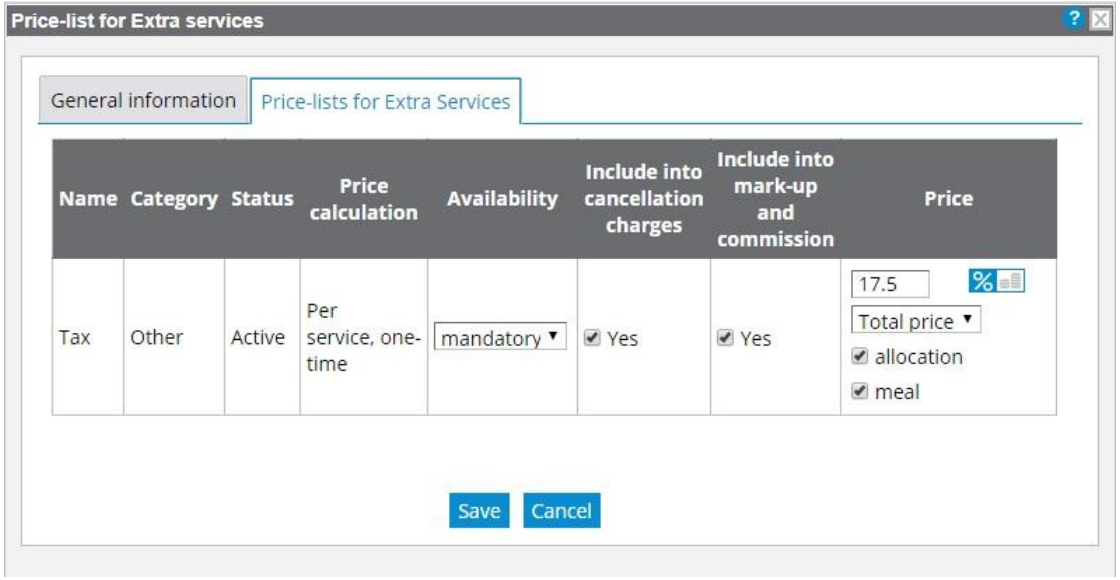
INVENTORY: CALCULATION OF EXTRA SERVICES IN % FROM ALLOCATION AND MEAL TYPE

In version 7.5 a new logic was added for calculating additional services for own hotels, taking into account not only meal, but also additional allocation type. Now calculations are available with the following conditions:

- ✓ apply to all allocation types (main bed + extra bed + sharing place);
- ✓ apply only to allocation;
- ✓ apply different percent amount to allocation and to meal type;

Access:

- ✓ **Selfoperated hotel -> Settings**

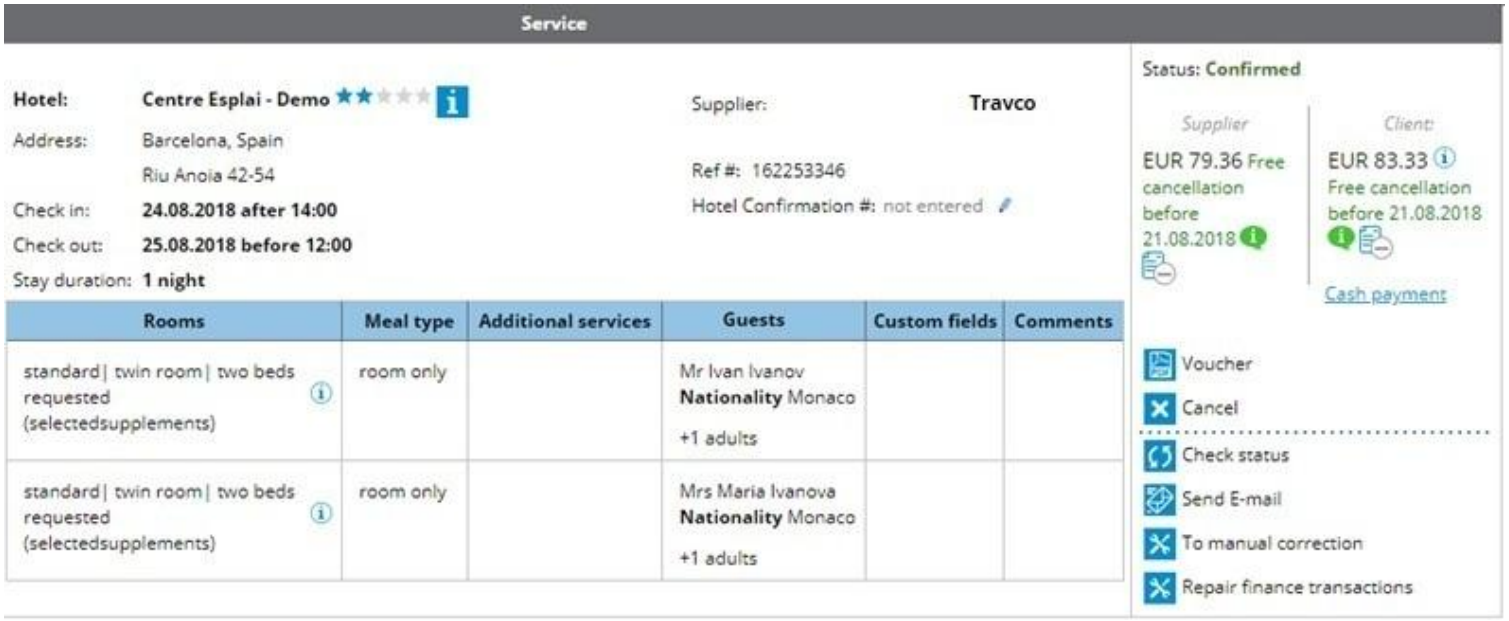


HUB/B2B: SEARCH&BOOK OF MULTIPLE ROOMS VIA TRAVCO AND HOTUSA

To optimize booking of several hotel accommodations, in Release 7.5 we added a new logic for booking two rooms in one reservation. Previously it was available with Hotelbeds, MIKI and TOURICO suppliers. Now to book several rooms in one transaction is possible for suppliers TRAVCO and HOTUSA.

Access:

- ✓ **Accommodation booking**

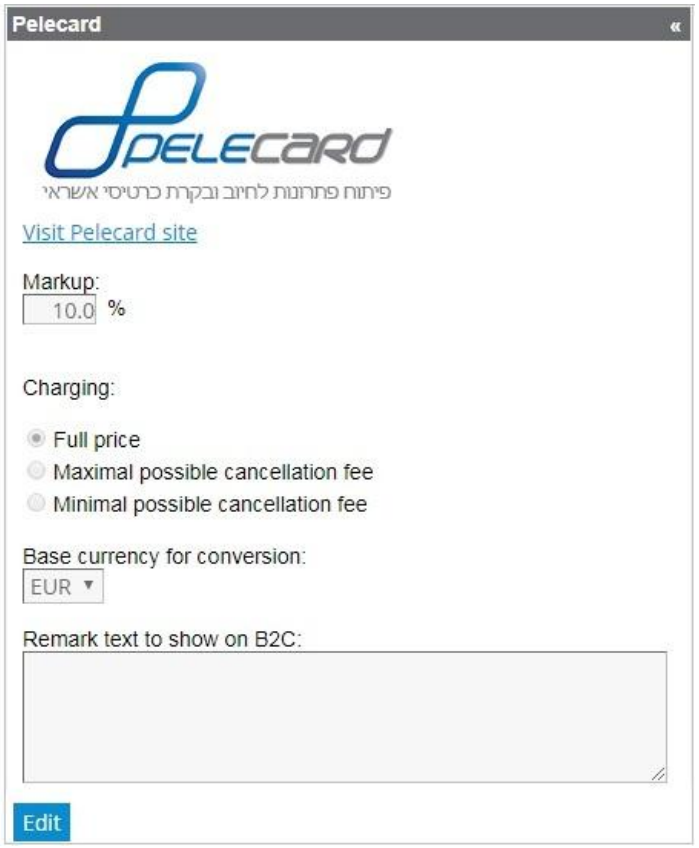


GATEWAYS: PELECARD ONLINE PAYMENTS

Pelecard online payment became available in the new version of the system. The company provides its customers with ready-made business solutions for over 20 years. Pelecard is used by many customers from all over the world and now is available in our system.

Access:

- ✓ **Finance >>**
- ✓ **Payment settings**

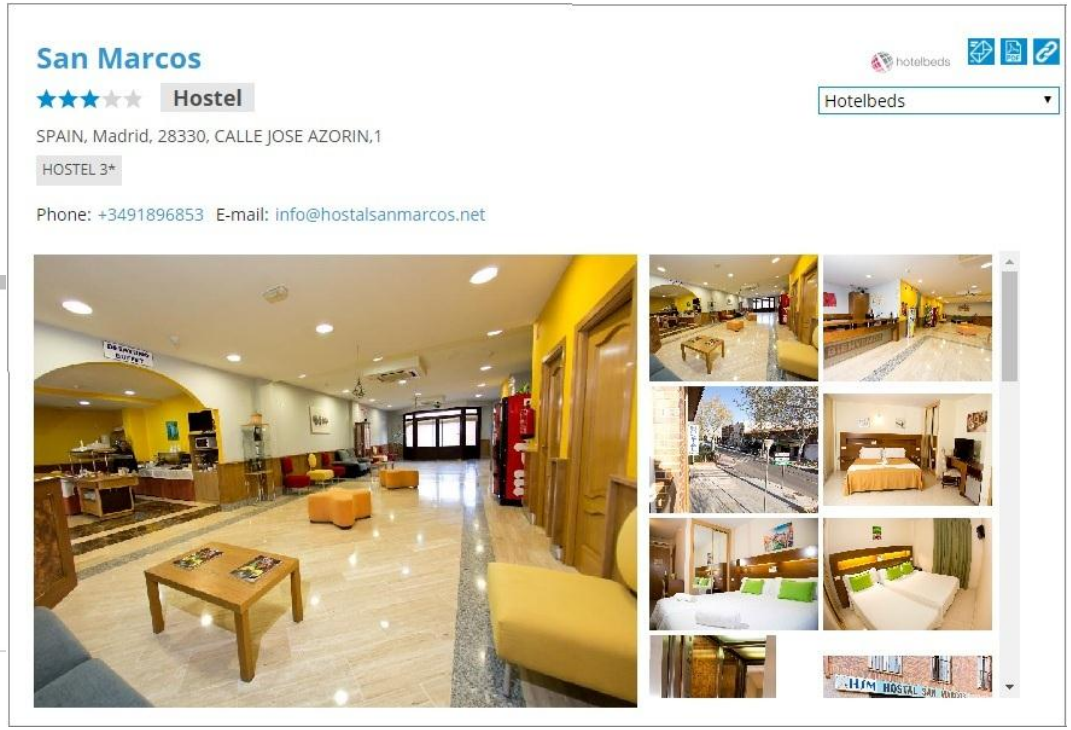


ENTERPRISE MANAGEMENT: NEW DETAILED DESCRIPTION WINDOW

A form of detailed description of hotels, activities and transfers has been changed in new version. What is more, for grouped hotels that are provided by several suppliers, you can view a description from a specific supplier.

Access:

- ✓ **Search results**

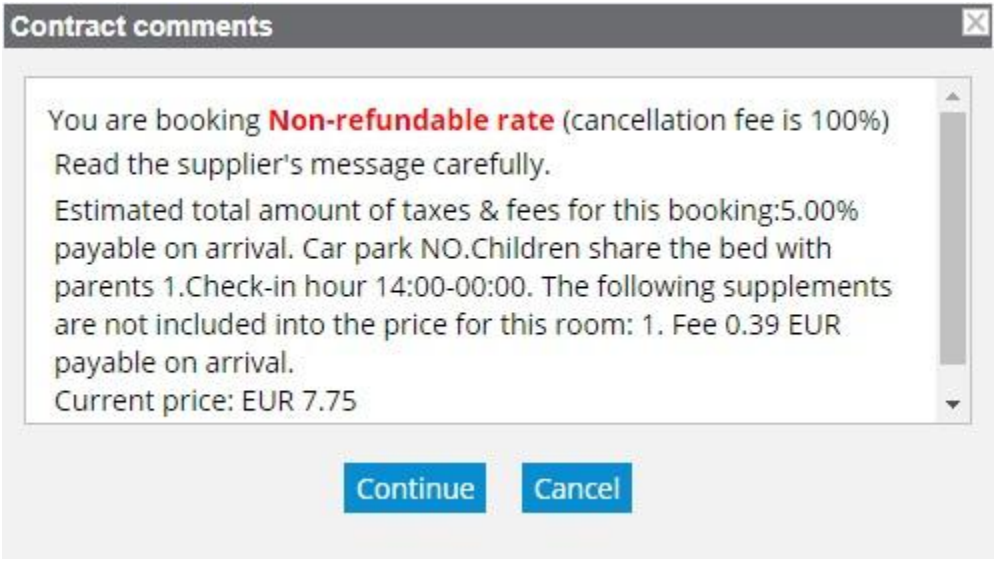


ENTERPRISE MANAGEMENT: NON-REFUNDABLE TARIFF WARNING

In version 7.5 a warning about the non-refundable tariff was added when booking a hotel. Now the user will not miss the important message about the 100% penalty and will be able to make the right decision about booking.

Access:

- ✓ **Hotel booking**

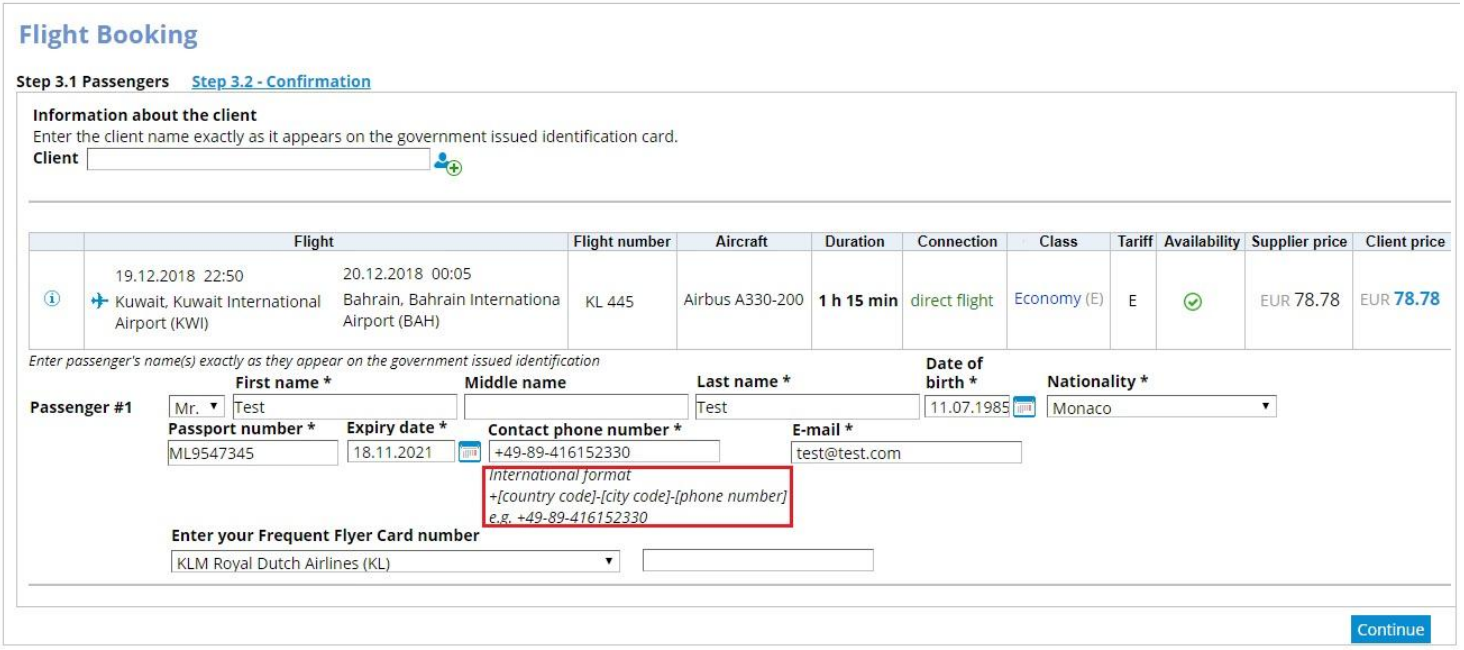


B2B/B2C/API: REQUIREMENTS FOR TELEPHONE FORMAT FOR FLIGHTS FROM MYSTIFLY AND TRAVELFUSION

It is necessary to specify phone number in certain format, in order to make a booking of flight from Mystifly and TravelFusion suppliers. That's why a special warning and example of phone number were added to booking form. It won't be difficult for users to enter the correct number using these hints.

Access:

✓ **Flight booking form**

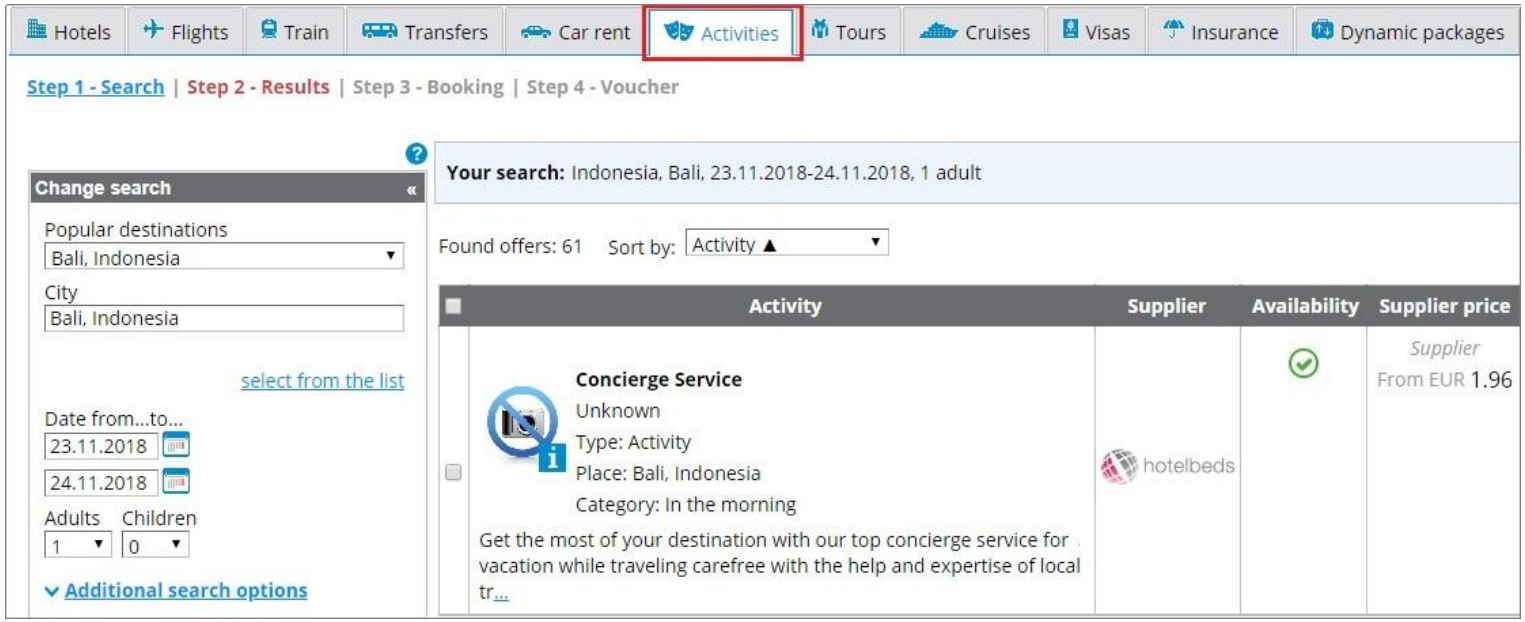


B2B/B2C/API: RENAMING EXCURSIONS TO ACTIVITIES

Another innovation for users who use the system in English. The Excursions tab has been renamed to Activities.

Access:

✓ **Activities search form**

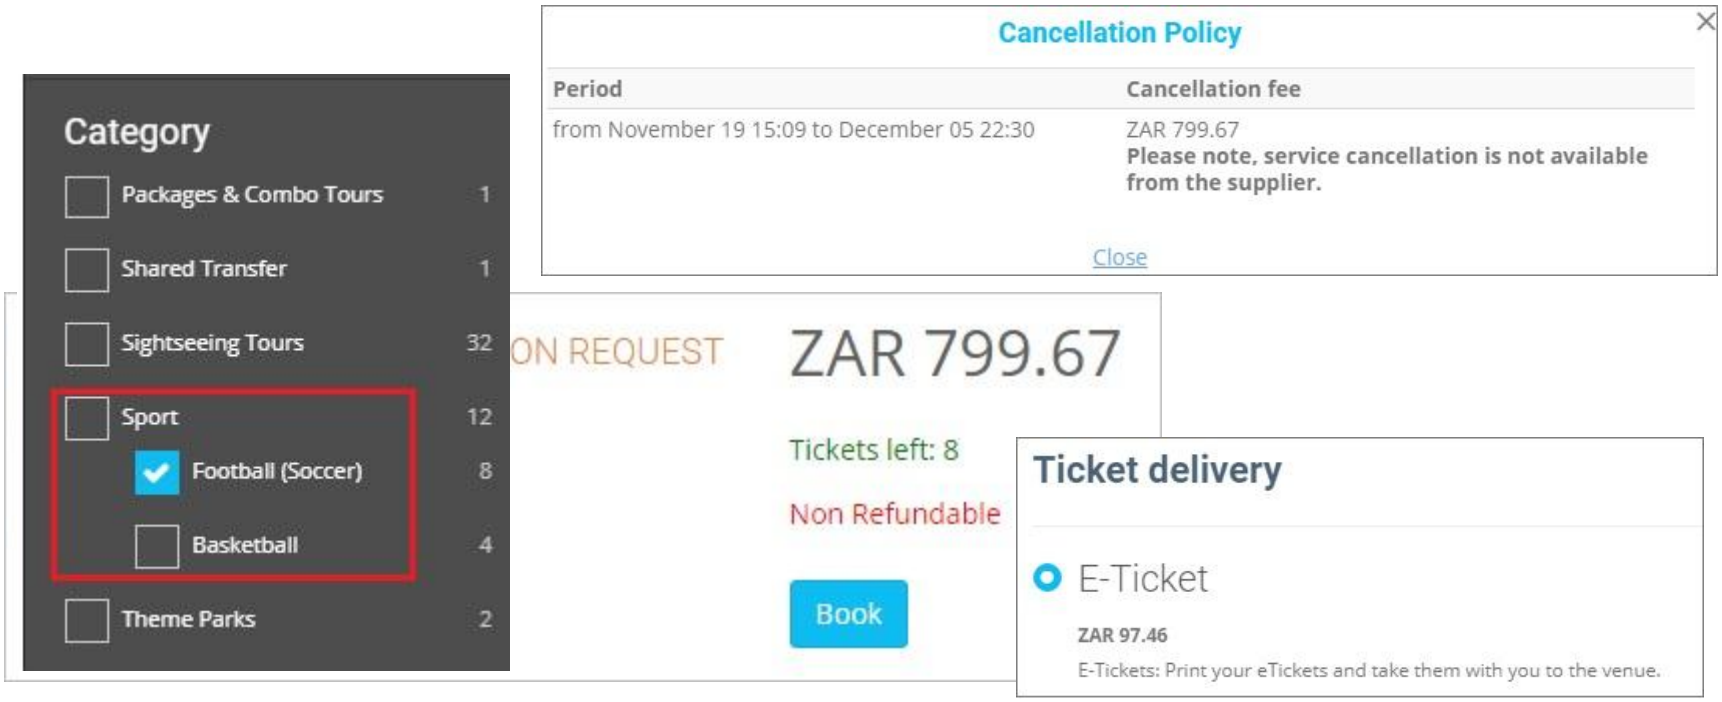


B2C: BOOKING EVENTS TICKETS FROM SPORTS EVENTS 365

Booking tickets for events from Sports Events is also available on b2c web site. That's why the following changes were made: filters by category and subcategory, the number of remaining tickets, delivery method of the ticket, the message about non-refundable tariff.

Access:

✓ **B2C >> Booking activities**

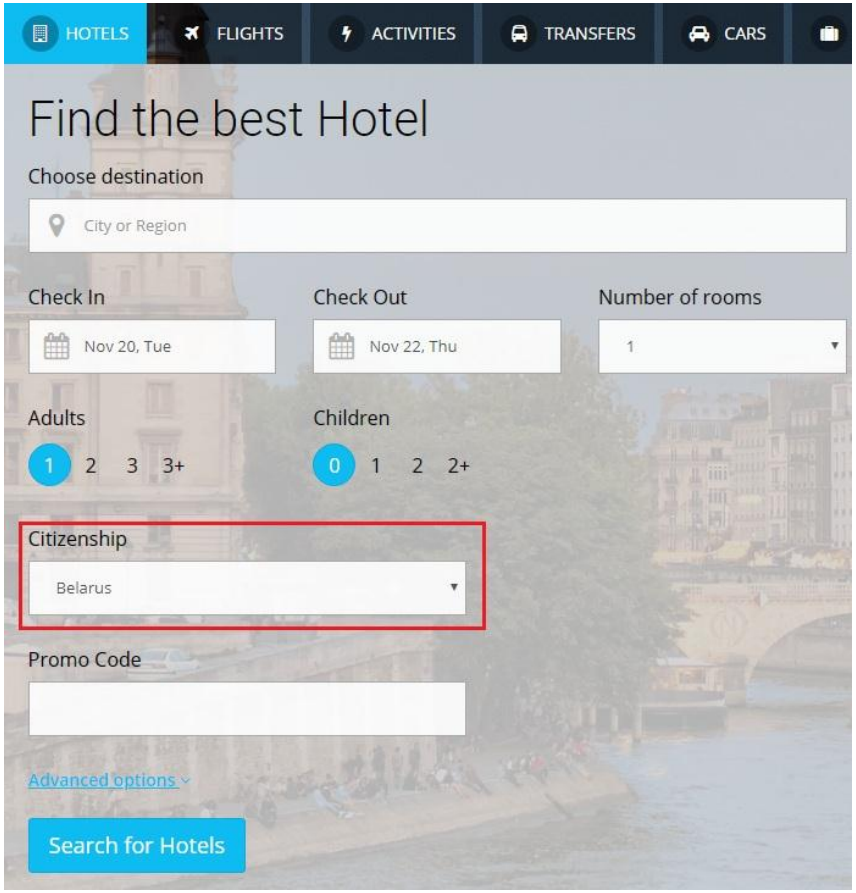


B2C: DISPLAYING SEARCH RESULTS IN CURRENCY DEPENDING ON CITIZENSHIP

A logic to display search results in currency corresponding to user's nationality, was implemented in release 7.5. Now a visitor can see prices in his national currency on search results of the hotel. For this A user should to fill in the Citizenship field on the hotel search form.

Access:

- ✓ **B2C >>**
- ✓ **Hotels search form**



API: CHANGES IN THE NAME OF METHODS

In version 7.5 excursions API methods were renamed to activities. Now methods for bookings and getting information on excursions are the following:
