

# GP Travel Enterprise Release 10.0

Presentation

March 20, 2024

Dear clients and partners!

We are happy to announce Release 10.0 of GP Travel Enterprise that introduces new great capabilities of our system including new modules, enhancements in existing modules as well as overall capabilities of the system. Additionally some changes in API were done.

For scheduling the delivery dates please contact our support team.

## Enhancements

### New Modules:

- ✓ Artificial Consultant *beta*
- ✓ Inbound E-mails
- ✓ Business Intelligence

### New capabilities of the Website:

- ✓ Dashboards for TO, Agencies and Corporate clients
- ✓ Agencies & Corporate Clients:
  - Extensions of the list of Agencies and Corporate Clients
  - Import / export Agencies and their users to / from the system
- ✓ Reservations:
  - Possibility to create a new Private client from the 'Search and book for' option
  - Extensions for Manual Correction of Flights
- ✓ Notifications: Templates extension
- ✓ Transfers: Selection of Hotel Areas

## Enhancements

- ✓ Itinerary Builder:
  - Send out and save Quotations to reservations as Attachments
  - Show Trip Plans for Certain Traveler
  - Trip Variants for Quotations
- ✓ Scheduler: Extended capabilities (filter, calendar navigation, print to XLS, add vehicle)
- ✓ Financial Enhancements (*for Payment Schedule module only*):
  - Automatic correction of payment schedule after amendments
  - Overpayments
  - Description for adding payment to Payment Schedule
  - Show/hide cancelled payments
  - Financial transactions export
  - Supplier payments in bulk
- ✓ Reservations Excel extensions (new columns)
- ✓ General UX enhancements, updated some UI elements (calendar, input fields, destination suggestions in search form)

## Enhancements

### Enhancements in Back-Office:

- ✓ Voucher attachment in Email confirmations
- ✓ Hotels: Default Star Rating
- ✓ Transfers: Ability to Define Hotels
- ✓ Supplier Payment Terms settings (*for Payment Schedule module*)

### API changes

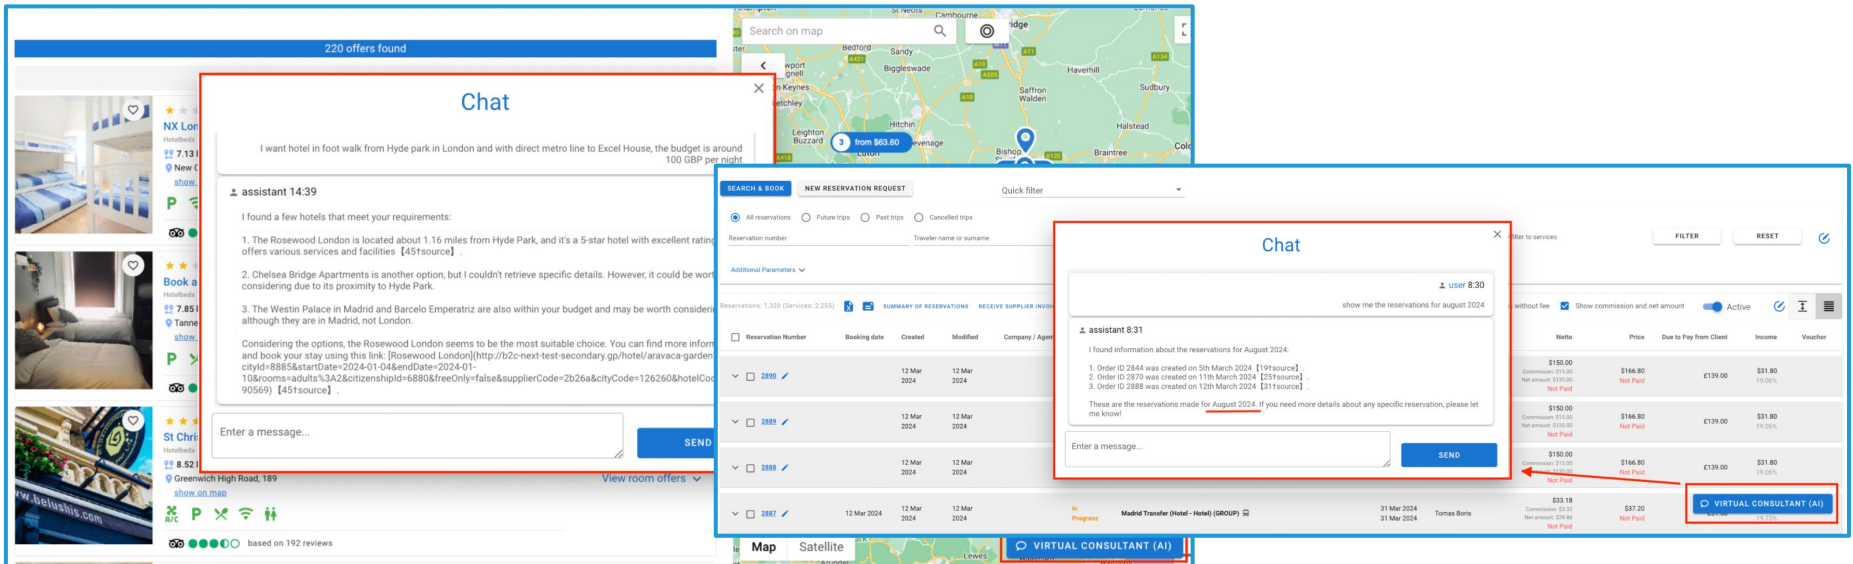

- ✓ We added new methods and parameters for the following products and functionalities: Inbound Emails, Orders, Companies, Persons, Dashboards, All Services, Scheduler, Import, Invoices

**Note:** see the details on API changes here: <https://gp-team.atlassian.net/wiki/spaces/GPTEAPI/pages/2258894852>

# 1. New Modules

**Artificial Consultant (AI)** - is the modern trend that allows to simplify and optimize various activities in business and everyday life. Starting from Release 10.0 in GP Travel Enterprise we're happy to provide capabilities of AI and they can be applied in various ways according to specifics of each business - for example:

- On Hotel Search Results - to help users quicker find preferable options
- Within the list of Reservations - for get answers on any questions related to reservations

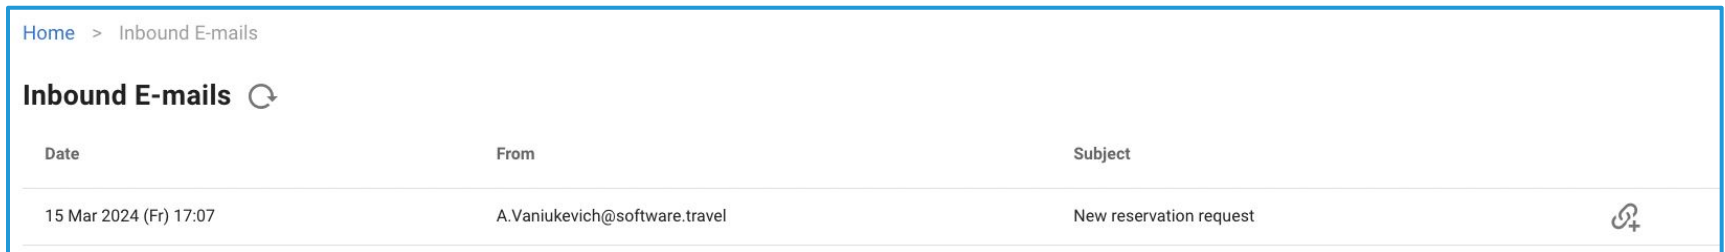

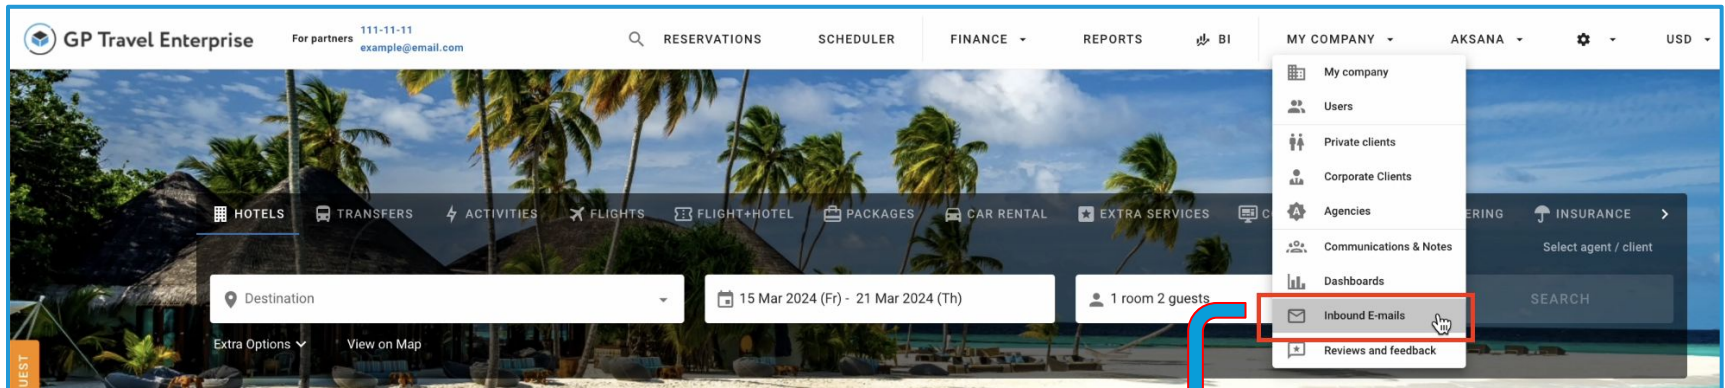

Ask anything you want and see how it works!

*Please Note! To turn on AI Consultant contact Customer Success Manager currently it's a pilot version and AI Consultant is currently learning to provide results in future!*

To capture inbound Emails that are received to a certain address and to show them within the system we've developed 'Inbound E-mails' module as an add-on to "Extended CRM".

Now you can capture all inbound e-mails received to certain e-mail (e.g. with reservation requests or answers to e-mails sent from the system to suppliers and clients) and attach them as Communications within the system.

## Access:

Main page >> Log in as B2B user >> My Company >> Inbound E-mails

*Please Note! To turn on Inbound E-mails contact Customer Success Manager.*

**Business Intelligence** module - is a new sophisticated tool of GP Travel Enterprise that allows to monitor and predict your sales. In addition to various reports which are a part of core version of the system, Business Intelligence module brings your business to a new level of organization.

In Release 10.0 we have added monitoring of sales for such Self-operated products as Activities, Transfers and Charters, and we continue working on more analytical capabilities to be added in future versions.

The screenshot shows the 'Business intelligence' section of the GP Travel Enterprise interface. It features a navigation bar with 'RESERVATIONS', 'SCHEDULER', 'REPORTS', and 'BI' (highlighted). Below the navigation, there are tabs for 'ACTIVITIES', 'TRANSFERS', and 'FLIGHTS'. A 'Filters' dropdown is visible. The main content is a table with columns for dates from 19 Mar 2024 to 24 Mar 2024. Two activity rows are shown: 'London Walking Tour' and 'City Tour in London from your hotel'. Each row displays booking counts (e.g., 10/0, 10/2, 10/4) and gross sales in Euros.

	19 Mar 2024 (Tu)	20 Mar 2024 (We)	21 Mar 2024 (Th)	22 Mar 2024 (Fr)	23 Mar 2024 (Sa)	24 Mar 2024 (Su)
<a href="#">London Walking Tour</a> London, United Kingdom	10 / 0 <sup>10</sup>	10 / 0 <sup>10</sup>	10 / 2 <sup>8</sup> (20%)	10 / 0 <sup>10</sup>	10 / 4 <sup>6</sup> (40%)	10 / 0 <sup>10</sup>
gross sales: €0.00	gross sales: €0.00	gross sales: €35.08	gross sales: €0.00	gross sales: €70.15	gross sales: €0.00	
<a href="#">City Tour in London from your hotel</a> London, United Kingdom	1 / 0 <sup>1</sup>	1 / 0 <sup>1</sup>	1 / 0 <sup>1</sup>	1 / 0 <sup>1</sup>	1 / 0 <sup>1</sup>	1 / 0 <sup>1</sup>
gross sales: €0.00	gross sales: €0.00	gross sales: €0.00	gross sales: €0.00	gross sales: €0.00	gross sales: €0.00	

**Access:** Main page >> Log in as B2B user >> BI

## **2. New Capabilities of the Website**

Some basic **Dashboards** are available for all users and now analytics of sales that previously was available only in Back Office can be viewed also from Internet Booking Engine for B2B users:

- Tour Operators
- Travel Agencies
- Corporate clients

*Note that only basic widgets are available here, more extended functionality can be requested as a part of Business Intelligence module.*

**Summary**

176 reservations

turnover **\$46,320.20**      profit **\$4,948.98**

**Reservations by Months**

Month	Reservations
Jan	~10
Feb	~100
Mar	~200

**Top Agents**

Agent	Count	turnover
Support	62	\$16,936.37
System user	5	\$11,954.09
Aksana Vanikevich	28	\$7,223.88
Supervisor Gp	20	\$5,367.00

To keep track on actual situation with bookings in Release 10.0 the system also starts showing for Travel Agencies and Corporate Clients their current balance and amount on deposit.

The screenshot displays the GP Travel Enterprise web application interface. At the top, the header includes the logo, user information (For partners 111-11-11, example@email.com), and navigation links: RESERVATIONS, FAVORITES, REPORTS, MY COMPANY, SUPERVISOR, USD, and EN. A balance and deposit summary is shown in the top right: Balance: -€27,274.16 and Deposit: €2,119.22. The main navigation menu includes HOTELS, TRANSFERS, ACTIVITIES, FLIGHTS, FLIGHT+HOTEL, PACKAGES, CAR RENTAL, and EXTRA SERVICES. A search bar is prominently displayed with fields for Destination, dates (20 Mar 2024 (We) - 26 Mar 2024 (Tu)), and 1 room 2 guests, along with a SEARCH button. A vertical banner on the left reads 'NEW RESERVATION REQUEST'.

## Access:

Main page >> Log in as B2B user of Travel Agency or Corporate Client

For handy work with an extensive network of Agencies we've broadened the Company's functionality with the following features:

- Extended Agencies and Corporate Clients tables with the **additional information columns** for fast access
- Added the possibility to **switch between active and inactive Agencies**

Home > Agencies

**Access:** Main page >> Log in as B2B user >> Agencies

If the B2B user knows the client details starting his search, now he can either choose or **create a new Private client** immediately from the 'Search and book for' option.

**Access:** Main page >> Log in as B2B user >>

The Manual Correction of Flights now supports the ability of more changes - both for flights booked Online and Offline, such as:

- Flight date and/or time
- Flight departure/arrival terminal
- Flight number
- Flight class and booking class
- Tariff/Branded Fare

### Manual modify service

**WARNING!!!**  
Manual correction of reservation DOES NOT synchronize it with suppliers or inventory.  
Please be sure that you have agreed about these changes with suppliers and updated remaining allotments manually.

**Access:** Main page >> Log in as B2B user >> Reservations >> Reservation details

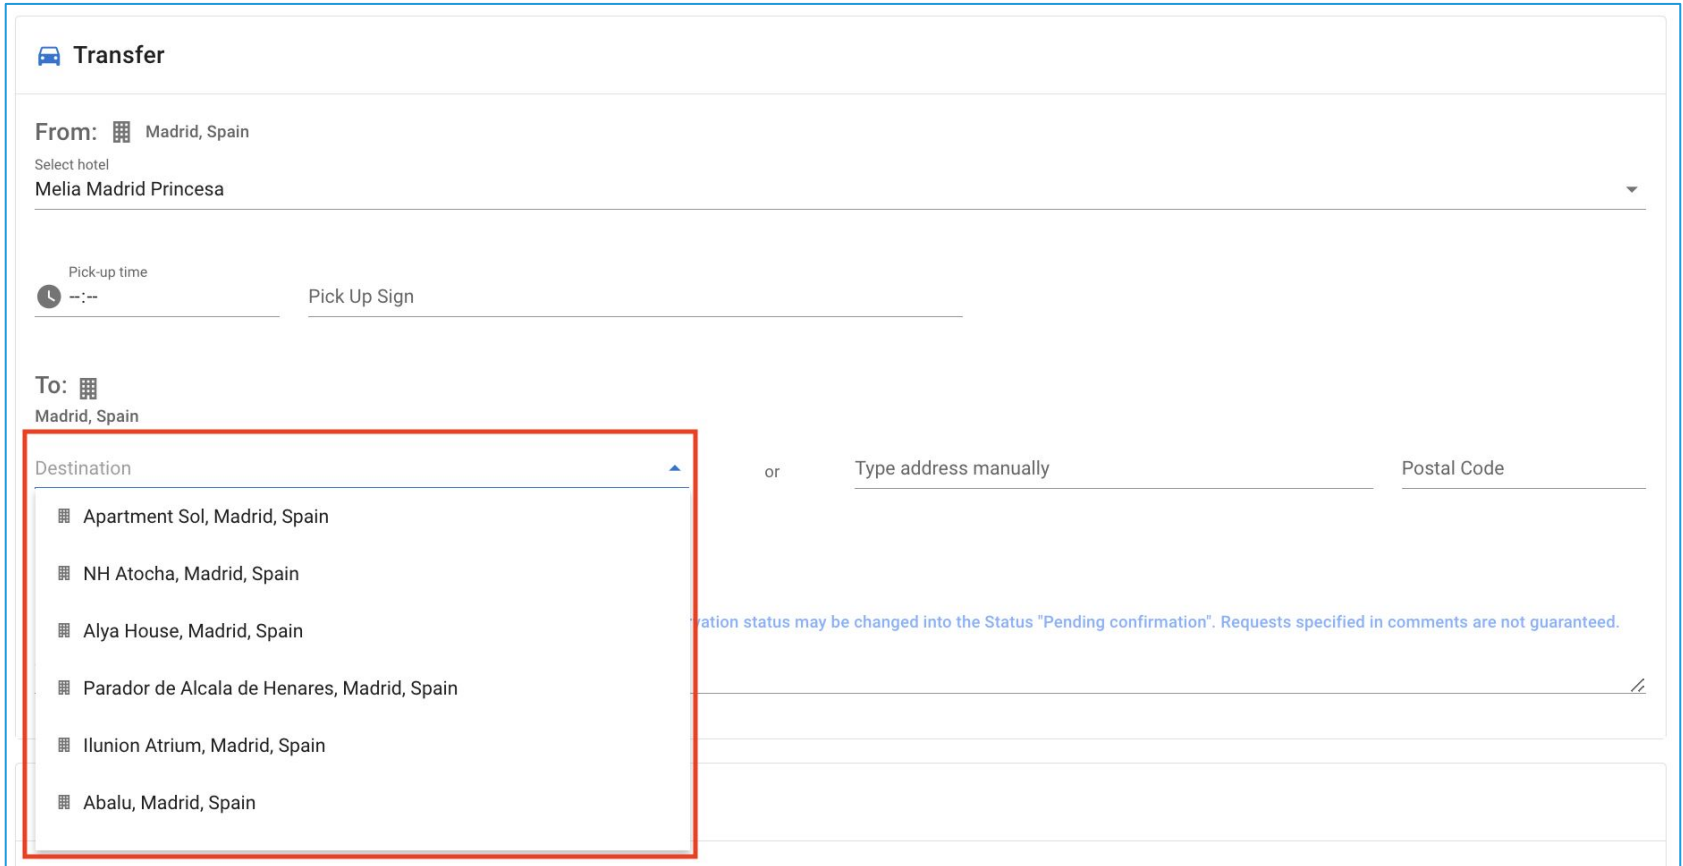

To be able to add or edit the email subject in the required language we've added a 'Title' field to the Notification Templates.

The image shows the GP Travel Enterprise notification template editor interface. At the top, the 'Template subject' field is highlighted with a red box and contains the text `{{orderNumber}} Booking creation`. Below the editor, a preview of the email template is shown. The preview includes the GP Travel Enterprise logo, a greeting, and reservation details. A red box in the preview highlights the subject line: **B2C prelive** 2915 Booking creation. A red arrow points from the editor's subject field to the preview's subject line. The preview also shows the reservation number 2915 and the confirmed status.

**Access:** Main page >> Log in as B2B user >> General settings >> Templates >> Email templates

If the Transfers that you operate have different rules, duration and pricing depending on destination areas - now you can choose for each transfer, to which hotels it operated - this is done within transfer creation.

After that when the user searches and books transfer - the system will allow the choice of only that hotels that are valid for this transfer.

The screenshot shows a web interface for creating a transfer. The 'From' field is set to 'Madrid, Spain' with the hotel 'Melia Madrid Princesa' selected. The 'To' field is also set to 'Madrid, Spain'. A dropdown menu is open, showing a list of destination options, each with a grid icon and the name of the location in Madrid, Spain. The options are: Apartment Sol, NH Atocha, Alya House, Parador de Alcalá de Henares, Ilunion Atrium, and Abalu. To the right of the dropdown, there are fields for 'Type address manually' and 'Postal Code'. A note at the bottom of the dropdown area states: 'Cancellation status may be changed into the Status "Pending confirmation". Requests specified in comments are not guaranteed.'

or Type address manually Postal Code

Cancellation status may be changed into the Status "Pending confirmation". Requests specified in comments are not guaranteed.

**Access:** Main page >> Search and book Transfers >> Transfer Booking page

Starting from Release 10.0 every time when a user generates and sends Quotation for travel to Client it's possible to keep PDF file within system with what exactly was sent using the option **“save generated document to attachments of current reservation”**.

Also the system keeps **versioning** of auto-generated documents.

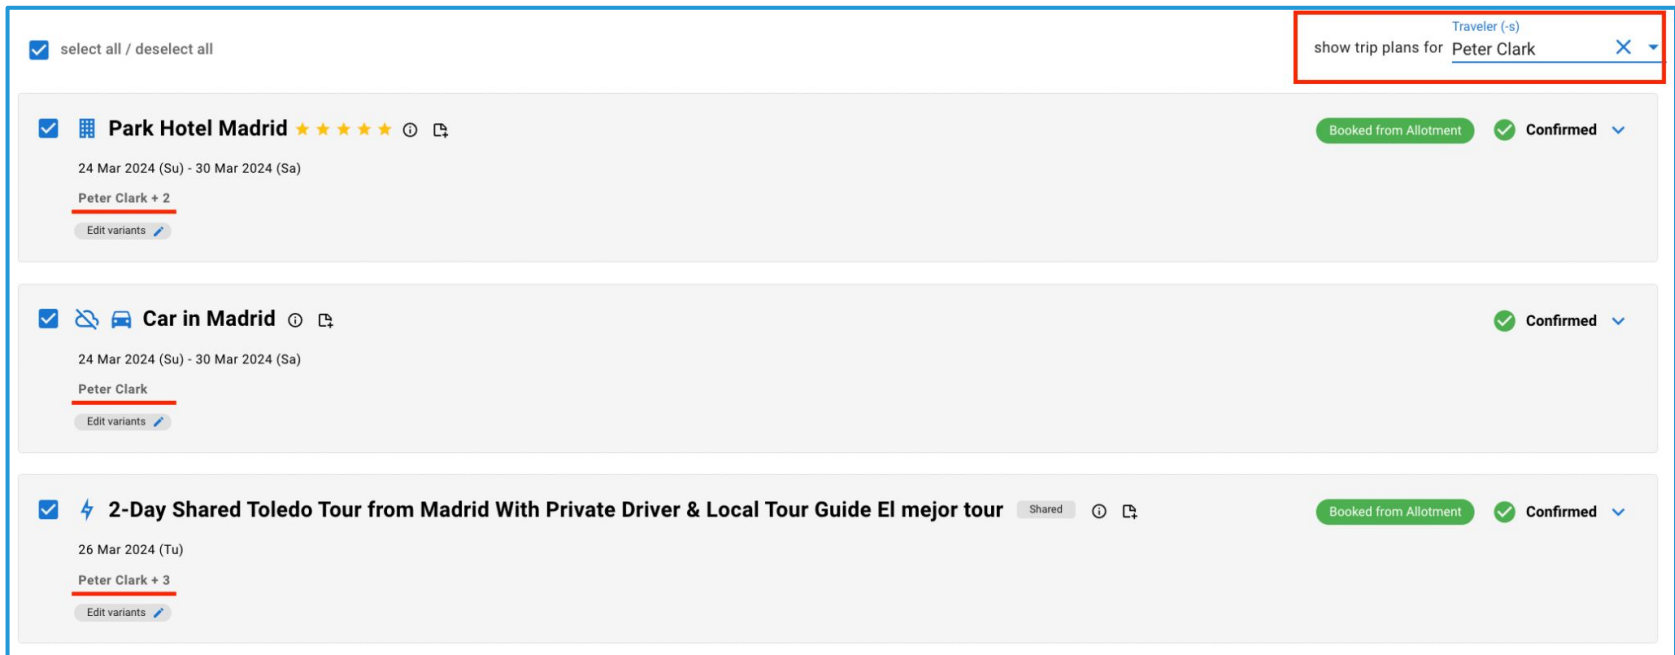

The screenshot illustrates the process of saving a quotation PDF to the system's attachments. It shows a 'Fixed Agent Quotation' dialog box with options to 'Download PDF', 'Send to E-mail', and 'Save generated document to attachments of current reservation'. The 'Attachments' list shows a file named '2727-SMITH-Agent\_Quotation-20240223.pdf'. The 'Add Service' button is highlighted, and a red arrow points to the 'Attachments' list, indicating the next step in the process.

**Access:** Main page >> Log in as B2B user >> Reservations >> Reservation details

Complex business trips may include several travelers, who arrive on different dates with different flights, require different transfers and have hotel reservations with overlapping dates. All these services are handled within one Reservation.

In order to double check that nothing is missed for each participant we've implement filtering services by traveler within reservations.

Now it's possible to select a particular traveler in **"Show trip plans for"** filter field -> the services only related to selected traveler are left on the screen.

The screenshot displays a reservation management interface. At the top left, there is a checkbox labeled "select all / deselect all". On the top right, a filter field is highlighted with a red box, containing the text "show trip plans for Peter Clark" and a dropdown arrow. Below the filter, three reservation items are listed:

- Park Hotel Madrid** (5 stars): 24 Mar 2024 (Su) - 30 Mar 2024 (Sa). Filtered for "Peter Clark + 2". Status: "Booked from Allotment" and "Confirmed".
- Car in Madrid**: 24 Mar 2024 (Su) - 30 Mar 2024 (Sa). Filtered for "Peter Clark". Status: "Confirmed".
- 2-Day Shared Toledo Tour from Madrid With Private Driver & Local Tour Guide El mejor tour** (Shared): 26 Mar 2024 (Tu). Filtered for "Peter Clark + 3". Status: "Booked from Allotment" and "Confirmed".

**Access:** Main page >> Log in as B2B user >> Reservations >> Reservation details

For trip Quotations we've developed **'Trip Variant' functionality**. Now Tour Operators and Agents may plan few alternatives for the trip within one reservation. For example, arriving with this or other flight or staying in one of the alternative hotels.

- Within a reservation it's possible to **mark services with tags** - to which variant they relate.
- And then it's possible to **filter the services by the tags** created to view only those services that relate to a certain trip variant.

The screenshot displays a list of services in an itinerary builder. Each service has an 'Edit variants' button and a dropdown menu for selecting trip variants. A red box highlights the 'Variant 1' button for the 'Madrid transfer' service. Another red box highlights the 'Variant 1' button for the 'Park Hotel Madrid' service. A third red box highlights the 'Variant 1' button for the '2-Day Shared Toledo Tour' service. A fourth red box highlights the 'Variant 1' and 'Variant 2' buttons for the 'Madrid city Transfer' service. A red arrow points to the 'Variant 1' button in the 'Madrid city Transfer' service. A dropdown menu is open for the 'Madrid city Transfer' service, showing 'Variant 1' selected and 'Variant 2' unselected. A search box at the top right is labeled 'Show trip variant' and contains 'Variant 1'. A search box at the bottom right contains 'Variant 1' and 'Variant 2' with a green checkmark and a close button.

**Access:** Main page >> Log in as B2B user >> Reservations >> Reservation details

We've extended the functionality of **Scheduler Module** with a wide range of enhancements.

For easier navigation among Excursions and Transfers we've added a **Filter** supporting the following searching parameters:

- All routes / future / past / cancelled
- Start and end date
- Services name, statuses and types, Shared or individual
- Filtering by Driver / Guide / Vehicle

The screenshot displays the Scheduler Filter interface. At the top, there are radio buttons for 'All', 'Future trips', and 'Past trips'. Below this are input fields for 'Start date from' (1 Mar 2024) and 'End date to' (29 Apr 2024), a 'Service status' dropdown, and a 'FILTER' button. Further down are fields for 'Service types', 'Shared or individual', 'Service name', 'Guide', 'Driver', and 'Vehicle'. To the right is a calendar for March and April 2024 with dates 2, 4, 7, 12, 16, 20, 25, 26, 27, 30, and 31 highlighted in yellow, and date 16 highlighted in blue. Below the filter section, it shows 'Total routes: 12' with a close icon. The main table lists routes with columns: Id, Time, Status, Service, Guests, Type, Guide, Driver, Vehicle, and Details. Two routes are visible:

Id	Time	Status	Service	Guests	Type	Guide	Driver	Vehicle	Details
▼ 2 Mar 2024									
2493111	10:00	New	Louvre Private Visit Paris, France	1	Individual	Andy Guide	Elliott Driver	Sedan Mercedes class A	<a href="#">DETAILS</a>
▼ 16 Mar 2024									
2431607	10:00	New	Madrid City Tour Madrid, Spain	1	Group	Andy Guide	Elliott Driver	Sedan	<a href="#">DETAILS</a>

**Access:** Main page >> Log in as B2B user >> Scheduler

For easier browsing among Excursions and Transfers we've also added the **navigation logic**: when user clicks on date in the calendar - the focus in the Routes table navigates to the corresponding date.

The screenshot displays the Scheduler interface. At the top, there are filter options: "All", "Future trips", and "Past trips". Below these are input fields for "Start date from" (1 Mar 2024) and "End date to" (29 Apr 2024), along with a "Service status" dropdown, a "FILTER" button, and a "RESET" button. Further down are fields for "Service types", "Shared or individual", "Service name", "Guide", "Driver", and "Vehicle".

On the right side, there is a calendar for March 2024 and April 2024. The date 30 Mar 2024 is highlighted with a red box. A blue arrow points from this date to the routes table below. The routes table has a header with columns: Id, Time, Status, Service, Guests, Type, Guide, Driver, Vehicle, and Details. The date 30 Mar 2024 is also highlighted in the table header.

Id	Time	Status	Service	Guests	Type	Guide	Driver	Vehicle	Details
30 Mar 2024									
2522694	10:00	New	2-Day Shared Toledo Tour from Madrid With Private Driver & Local Tour Guide El mejor tour Madrid, Spain	1	Group				DETAILS

**Access:** Main page >> Log in as B2B user >> Scheduler

To Scheduler Module we've added the possibility to **Print list of routes to XLS**.

*Now after preparation of weekly plans, Tour Operator may filter the list of routes by a certain Guide and then print XLS table for him with his trips.*

The screenshot shows the Scheduler interface with the following elements:

- Filters:** Radio buttons for "All", "Future trips", and "Past trips". Input fields for "Start date from" (1 Mar 2024) and "End date to" (29 Apr 2024). A "FILTER" button and a "RESET" button.
- Calendar:** A calendar view for March and April 2024. The date 16.03.2024 is highlighted in blue, and a red arrow points from this date to the XLS export button.
- Export Button:** A small XLS icon next to the text "Total routes: 13" is highlighted with a red box. A red arrow points from this icon to the XLS export button in the table below.
- Table:** A table with columns: Id, Date, Time, Status, Service, Guests, Type, Guide, Driver, Vehicle. The table contains 13 rows of route data.

	Id	Date	Time	Status	Service	Guests	Type	Guide	Driver	Vehicle

**Access:** Main page >> Log in as B2B user >> Scheduler

Some enhancements were also added to the **Transfer and Excursion** screen of Scheduler Module. Now there is the possibility to:

- specify Vehicle
- change start time of the service
- view the contacts of travelers and other info in a new layout

The screenshot displays the Scheduler interface. At the top, there are filter options for 'All', 'Future trips', and 'Past trips'. Below this, there are input fields for 'Start date from' (1 Mar 2024), 'End date to' (29 Apr 2024), and 'Service status'. A 'FILTER' button and a 'RESET' button are also present. To the right, there is a calendar view for March and April 2024, with dates 2, 8, 9, 16, 18, 20, 25, and 31 highlighted in yellow.

The main content area shows a service detail for 'Madrid city Transfer (GROUP)' on 4 Apr 2024 (Th) at 13:00. The service is 'New'. The guide is 'Andy Guide' and the driver is 'Elliot Driver'. The vehicle is 'Mercedes Minivan Class V (up to 10 passengers)'. There is an option to 'Add comment'.

Below the service detail, there is a section for 'Tourists: 4'. A table lists the tourists with their reservation details, arrival status, and contact information. The 'Contacts' column is highlighted with a red box.

Name	Reservation	Arrived	From	To	Status	Accommodation	Contacts
Pett Cooper Pick Up Sign: Smith & Cooper							
Adele Cooper Pick Up Sign: Smith & Cooper	2676	<input type="checkbox"/>	Madrid, Spain, Flight/train details: AB4567, Berlin Brandenburg Airport (BER), 04.04.2024 10:00	Madrid, Spain, Flight/train details: AB4567, Berlin Brandenburg Airport (BER), 04.04.2024 10:00	Confirmed	Park Hotel Madrid Spain, Madrid 04 Apr 2024 - 06 Apr 2024	+48777666555
John Smith Pick Up Sign: Smith & Cooper							
Jane Smith Pick Up Sign: Smith & Cooper							

**Access:** Main page >> Log in as B2B user >> Scheduler >> Service screen

Other enhancements added to the Transfer and Excursion screen of Scheduler Module is the possibility to **Print route details to XLS**.

We've added icon "xls" to export to Excel route details. The generated Excel file has multiple pages:

- Info & Travelers - the information shown on screen above
- Pick-up Signs - each pick-up sign is aligned to fit to 1 page A4

# Automatic correction of payment schedule after amendments

We have added the functionality to automate the working with Payment Schedule to re-issue the remaining balance on a reservation as Invoiced without need to add it manually after any amendments that affect the total amount to pay on the reservation.

*Please note: the functionality is enabled separately and available for Payment Schedule module only.*

The screenshots illustrate the 'Payment schedule' modal in the reservation management system. The modal displays a table of payments with columns for Due date, Amount, Status, Supplier name, Pay, and Cancel. The background shows reservation details for 'Amalia Forest'.

**Top Screenshot (Initial Reservation):**

- Reservation: 2933, In Progress
- Booking date: 19 Mar 2024 (Tu)
- Company: Agency TA
- Agent: Ms Ann Johnson
- Client: Mr Ben Forest
- Manager: Mr To1 User
- Dates: 1 Jun 2024 (Sa), 8 Jun 2024 (Sa), 8 days / 7 nights
- Supplier price: €100.00, \$750.00
- Client price: AS\$1,793.00
- Commission: AS\$244.72
- Net amount: AS\$1,548.28
- Not Paid
- Cancellation Policy

Due date	Amount	Status	Supplier name	Pay	Cancel
22 Mar 2024	A\$400.00	Invoiced	NTO	<a href="#">PAY</a>	<a href="#">CANCEL</a>
30 Apr 2024	AS\$1,140.94	Invoiced	NTO	<a href="#">PAY</a>	<a href="#">CANCEL</a>
AS\$0.00	Not Invoiced	NTO			

**Bottom Screenshot (After Amendment):**

- Reservation: 2933, In Progress
- Booking date: 19 Mar 2024 (Tu)
- Company: Agency TA
- Agent: Ms Ann Johnson
- Manager: Mr To1 User
- Dates: 1 Jun 2024 (Sa), 9 Jun 2024 (Su), 9 days / 8 nights
- Supplier price: €100.00, \$845.00
- Client price: AS\$1,992.00
- Commission: AS\$271.78
- Net amount: AS\$1,720.22
- Not Paid
- Cancellation Policy

Due date	Amount	Status	Supplier name	Pay	Cancel
22 Mar 2024	AS\$400.00	Invoiced	NTO	<a href="#">PAY</a>	<a href="#">CANCEL</a>
30 Apr 2024	AS\$1,312.07	Invoiced	NTO	<a href="#">PAY</a>	<a href="#">CANCEL</a>
30 Apr 2024	AS\$1,140.94	Canceled	NTO		
AS\$0.00	Not Invoiced	NTO			

**Access:** Main page >> Log in as B2B user >> Reservations >> Reservation screen >> View payment schedule

For situations when the payment received from a client is more than due to pay we have added the possibility to enter such amounts to Payment Schedule and track overpayments by a new payment status “Overpaid” shown on a reservation and available in the filters on the reservations list.

*Please note: the functionality is enabled separately and available for Payment Schedule module only.*

The screenshot shows a 'Payment schedule' modal window overlaid on a reservation details page. The modal contains a table with the following data:

Due date	Amount	Status	Supplier name	Pay date	Pay	Cancel
30 Apr 2024	-A\$7.93	Invoiced	NTO		<a href="#">PAY</a>	<a href="#">CANCEL</a>
30 Mar 2024	A\$1,320.00	Paid	NTO	19 Mar 2024		<a href="#">CANCEL</a>
22 Mar 2024	A\$400.00	Paid	NTO	19 Mar 2024		<a href="#">CANCEL</a>
	A\$0.00	Not Invoiced	NTO			

The background reservation details include:

- Reservation: 2933
- Reservation status: In Progress
- Booking date: 19 Mar 2024 (Tu)
- Company: Agency TA
- Agent: Ms Ann Johnson
- Client: Mr Ben Forest
- Manager: Mr To1 User
- Dates: 1 Jun 2024 (Sa) to 9 Jun 2024 (Su), 9 days / 8 nights
- Supplier price: €100.00 / \$845.00
- Client price: A\$1,992.00
- Commission: AS271.78
- Net amount: A\$1,720.22
- Overpaid: A\$767.00 (highlighted in red)
- Not Paid: A\$7.93
- Next payment due: -A\$7.93 before 30 Apr 2024

The screenshot shows the 'Client details' filter menu with the 'Client payment status' dropdown open. The 'Overpaid' option is selected and highlighted with a red box. Other options include Paid, Partly Paid, and Not Paid.

**Access:** Main page >> Log in as B2B user >> Reservations >> Reservation screen >> View payment schedule

# Description for adding payment to Payment Schedule

A new 'Description' field is available when adding a payment schedule to advise what the payment is for. It is also possible to add a predefined list of values to select from or switch to manual entering of a free text description which will be shown on the list of invoices/payments.

*Please note: the functionality is available for Payment Schedule module only.*

**Add payment schedule**  
Add an expected payment(s) to the payment schedule.  
All amounts added here are to be available in View Payment Schedule to manage further.

Rows per page: 10 1-3 of 3

**Access:** Main page >> Log in as B2B user >> Reservations >> Reservation screen >> Add and View payment schedule

In case of multiple corrections on Payment Schedule the number of cancelled invoices/payments can be significant overloading the screen. To be able to view actual invoices/payments only the check-box “Show cancelled payments” was added.

*Please note: the functionality is available for Payment Schedule module only.*

**Access:** Main page >> Log in as B2B user >> Reservations >> Reservation screen >> View payment schedule

For purposes of reconciliation or any other financial actions we have added the possibility to export a report/excel file to show all the existing amounts invoiced or transactions paid in and out of the system.

*Please note: the functionality is available for payments via Payment Schedule module only.*

The screenshot shows the 'Payments' page in the GP Travel Enterprise system. The page header includes the company name, contact information, and navigation tabs for RESERVATIONS, SCHEDULER, FINANCE, REPORTS, BI, MY COMPANY, TO1, and AUD. The 'Client payments' dropdown is set to 'Client payments'. The 'Filters' section shows 'Invoices: 174' with an export icon highlighted by a red box and a red arrow pointing to the table below.

To speed up the process of payments to suppliers we have added the functionality to receive/issue invoices from suppliers from the list of reservations instead of going into each reservation separately. Now it is enough to apply some filters or select certain reservations to run the automated process of adding payment schedule with supplier(s).

*Please note: the functionality is available for Payment Schedule module only.*

The screenshot shows the GP Travel Enterprise interface. At the top, there are navigation tabs: RESERVATIONS, SCHEDULER, FINANCE, REPORTS, and BI. Below the navigation, there are search and filter options. A modal dialog titled "Receive supplier invoices" is open, showing two radio button options: "Selected reservations 3" and "All reservations". The background shows a table of reservations with columns for Reservation Number, Booking date, Created, Modified, Status, Agency, Dates, Traveler, Netto, Price, Due to Pay from Client, Income, and Voucher.

Reservation Number	Booking date	Created	Modified	Compe	Dates	Traveler (-s)	Netto	Price	Due to Pay from Client	Income	Voucher

For better UX experience we've updated some UI elements:

- Made Calendar more convenient - now any two-month period is displayed at one screen for any start month
- Input fields became more intuitive for filling in
- Added the logic that speeds up the suggestions to optimise Destinations in Search form

**Access:** Main page >> Log in as B2B, B2C user >> Overall website

## **3. Enhancements in Back-Office**

We developed a new functionality to **specify Self-operated Hotels** for which an exact **Self-operated Transfer Operates**.

Now within Self-operated Transfers it's possible to select hotels, where this transfer can go. The limited Hotels will be displayed for the particular Transfer on booking page.

The screenshot shows a web interface for configuring transfers. A modal window titled "Choose hotels for transfer location point" is open, allowing selection of hotels. The modal includes a search bar and a list of hotels with checkboxes. A red arrow points to the "NH Madrid Paseo del Prado" entry. In the background, the "Drop off points" table is visible, with the first row highlighted in red.

Name	Time shift	
Hotel/Address, Spain, Madrid (3 hotels)	+ 00:00	Delete
Hotel/Address, Spain, Madrid (1 hotel)	+ 01:00	Delete

**Access:** Main page >> Selfoperated products >> Transfers >> Transfer details

We've implemented a new logic for Email Confirmations that automatically **attaches Vouchers** for paid reservations.

The image shows a screenshot of an email confirmation and a detailed view of the attached 'Accommodation Voucher'.

**Email Confirmation Content:**

- You have made a reservation on the website B2C prelive. Your reservation number is **2728**.
- Your reservation is **confirmed**.
- The following services have been booked:
  - Hotel: Park Hotel Madrid
  - Spain Madrid
- Rooms:
  - 1. **Suite Garden View with Terrace, Room O**
- Check-in: 14:00 23.05.2024
- Check-out: 12:00 25.05.2024
- Dates: **23.05.2024 - 25.05.2024**
- Duration of stay: **2 night(s)**
- Guests: **Tomas Forest**
- Selected payment method: **Stripe - Immediat**
- If you need any help please don't hesitate to c

**Accommodation Voucher Content:**

A red box highlights the 'e-voucher.pdf' attachment in the email, with a blue arrow pointing to the detailed voucher view on the right.

**Access:** Confirmation Email body

Added the possibility to **select default star rating for Hotels** received from the external API suppliers.

Now if the 'Default star rating' config is added, the search results display only the Hotels starting from the selected rating (for example '3+'). At the same time a user will be able to select other star rating during search via filters. The default rating should be is displayed if no rating is selected manually.

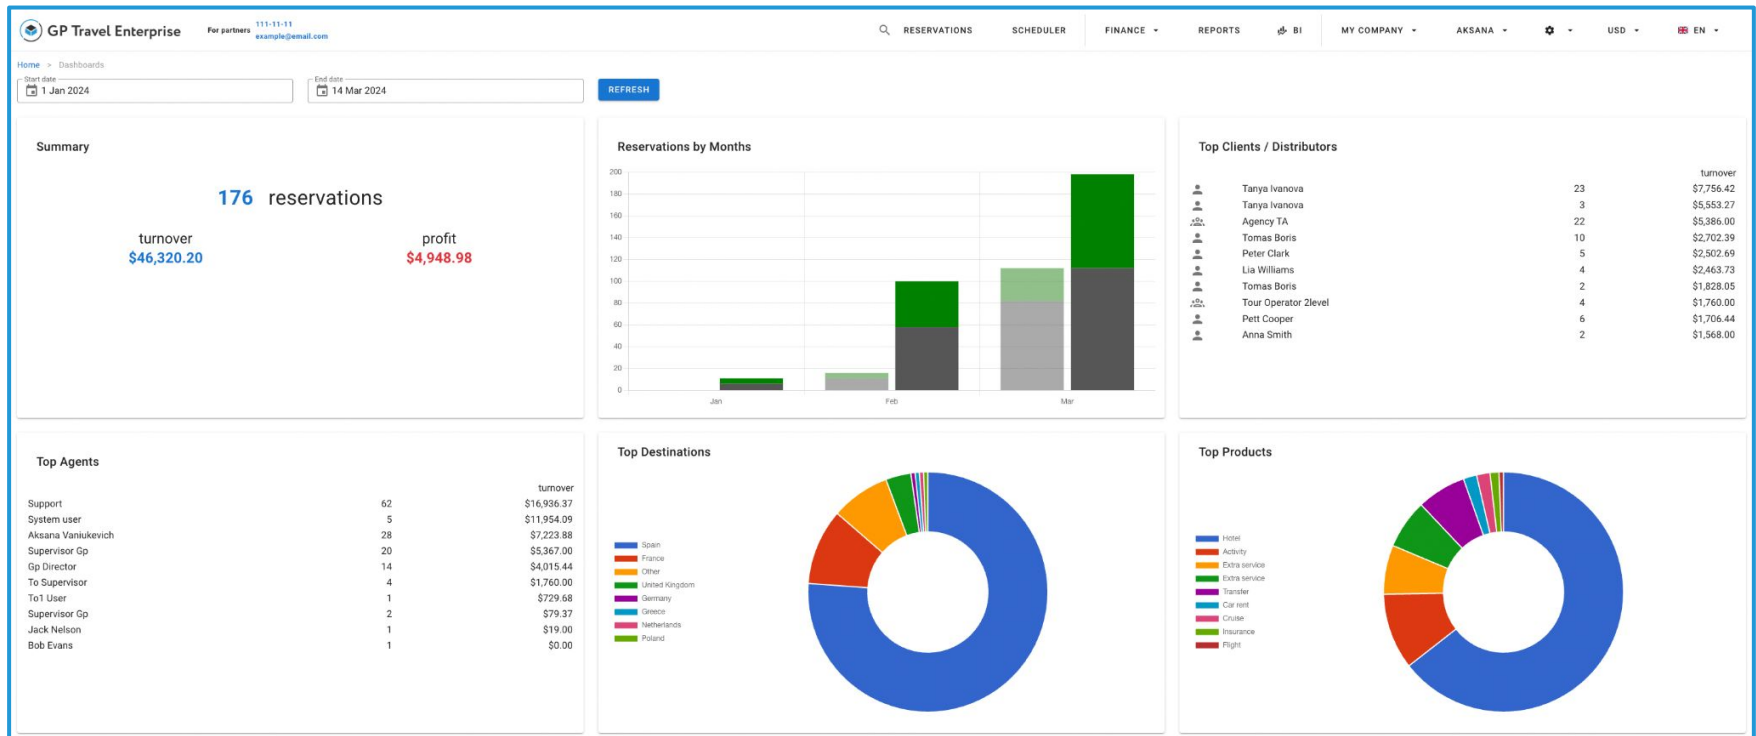

*Note! To connect, contact Customer Success Manager*

The screenshot displays two hotel listings. The first listing is for 'Thistle Express London Luton', which has a 3-star rating (indicated by three yellow stars and two grey stars), is located 46.03 km from the center in the Luton Airport area, and has a price starting from \$517.20. The second listing is for 'Golders Park Hotel', which has a 4-star rating (indicated by four yellow stars and one grey star), is located 9.28 km from the center in the Brent Cross area, and has a price starting from \$537.60, down from \$597.34 (a 10.00% discount). Both listings include a 'BOOK' button and a 'View room offers' link.

**Access:** Search and Book Hotels >> Hotels Search results

**New logic for counting on Dashboards** is implemented:  
 services in status “Saved order/Quote” are not included in Dashboard statistic numbers.

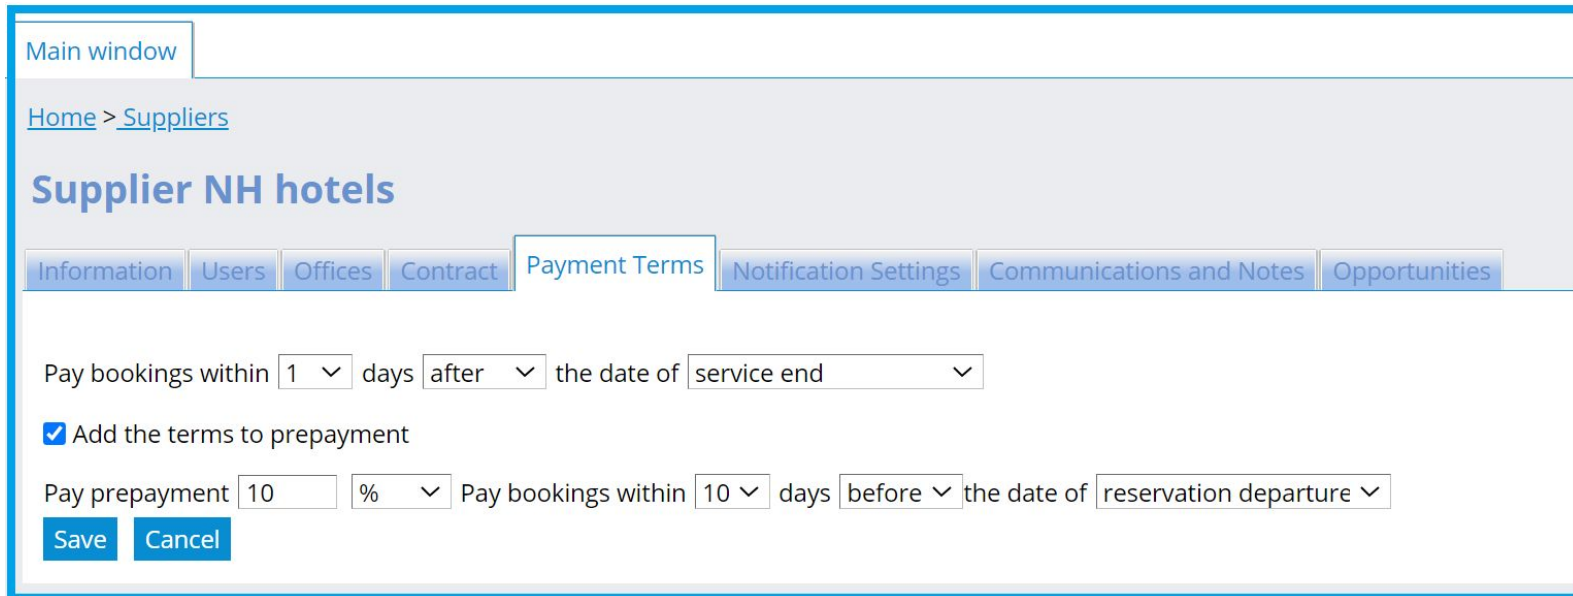

**Access:** Main page >> Log in as B2B user >> My Company >> Dashboards

New functionality to set up supplier payment terms is added which allows to add the rules for:

- due date for payments
- prepayment amount with its own due date *(if required)*

Added terms are applied to bulk supplier payments and adding payment schedule from suppliers in a certain reservation as well.

*Please note: the functionality is available for financial module based on Payment Schedule only.*

The screenshot shows a web application interface for setting payment terms. At the top, there is a breadcrumb trail: Home > Suppliers. Below this, the title 'Supplier NH hotels' is displayed. A horizontal menu contains several tabs: Information, Users, Offices, Contract, Payment Terms (which is currently selected), Notification Settings, Communications and Notes, and Opportunities. The main content area is for the 'Payment Terms' tab. It features two rows of settings. The first row is 'Pay bookings within 1 days after the date of service end'. The second row is 'Pay bookings within 10 days before the date of reservation departure'. There is a checkbox labeled 'Add the terms to prepayment' which is checked. Below the settings are 'Save' and 'Cancel' buttons.

**Access:** Main page >> Log in as B2B user >> Suppliers >> Certain supplier >>

## 4. API Changes

## Add new sections to the REST API:

- ✓ “Import”
- ✓ “Dashboards”

## New API methods are added:

- ✓ **POST** /import/users - to upload the users data (.xlsx) to import
- ✓ **POST** /import/organisations - to upload the organisations and users data (.xlsx) to import
- ✓ **POST** /import/corporate-clients - to upload the corporate clients data (.xlsx) to import
- ✓ **POST** /import/corporate-clients - to upload the corporate clients data (.xlsx) to import
- ✓ **POST** /issueBulkManualInvoices - to run automatic invoicing from suppliers
- ✓ **GET** /download/persons - to download users data
- ✓ **GET** /download/companies - to download companies data
- ✓ **GET** /downloadSchedulerGroups
- ✓ **GET** /downloadSchedulerGroupsDetails
- ✓ **GET** /downloadManualInvoices - to download excel file with payments
- ✓ **GET** /organizationFinances - to get current balance and amount on deposit
- ✓ **GET** /dashboards - to get organization requests statistics for selected period

## New parameters are added to the existing API methods:

### Inbound Emails:

- ✓ **GET** /company:
  - parameter “email” is added to the request
- ✓ **GET** /persons:
  - parameter “email” is added to the request
  - parameter “phone” is added to the request

- ✓ **GET** /privateClients:
  - parameter "email" is added to the request

## Orders:

- ✓ **POST** /manualModification:
  - parameter "bookingClass"
  - parameter "brandedFare"
- ✓ **POST** /orderServices: parameter "brandedFare"
- ✓ **PUT** /orderServices: parameter "brandedFare"

## Companies:

- ✓ **GET** /companies:
  - parameters "groupOfContracts", "manager", "stage", "firstOrderDate", "lastOrderDate", "ordersCount", "currentBalance"
- ✓ **GET** /downloadCompanies:
  - parameters "companyId", "companyType", "fileType"

## Persons:

- ✓ **GET** /downloadPersons:
  - parameters "companyId", "fileType"

## Dashboards:

- ✓ **GET** /dashboards:
  - parameters "startDate" and "endDate"

## All Services:

- ✓ **GET** /search[Service]:
  - array "commission" added to response for "supplier price"
- ✓ **GET** /additionalOptions:
  - array "commission" added to response for "supplier price"

## Scheduler:

- ✓ **GET** /schedulerGroups:
  - parameter “vehicle” to the response
- ✓ **GET** /schedulerGroupDetails:
  - parameter “vehicle” to the response
- ✓ **GET** /modifySchedulerGroup/{groupId}:
  - parameter “vehicle” to the request and response
  - parameter “dateTime” to the request and response

## Invoices:

- ✓ **POST** /issueManualInvoice:
  - parameter “description” to the request
- ✓ **GET** /manualInvoices
  - parameter “description” to the response

**Note:** see the details on API changes here: <https://gp-team.atlassian.net/wiki/spaces/GPTEAPI/pages/2258894852>

Dear clients!

We hope that you will find these enhancements useful.

Send your questions, feedback and suggestions to our e-mail address [gpte@software.travel](mailto:gpte@software.travel) with “Release 10.0” in the subject line.
