 - ✓ Considering of travel policy for search/booking by schedule for flights
 - ✓ New parameters packageDate and packageDuration for dynamic packages search
 - ✓ Change of logic for password restore

1. NEW MODULES

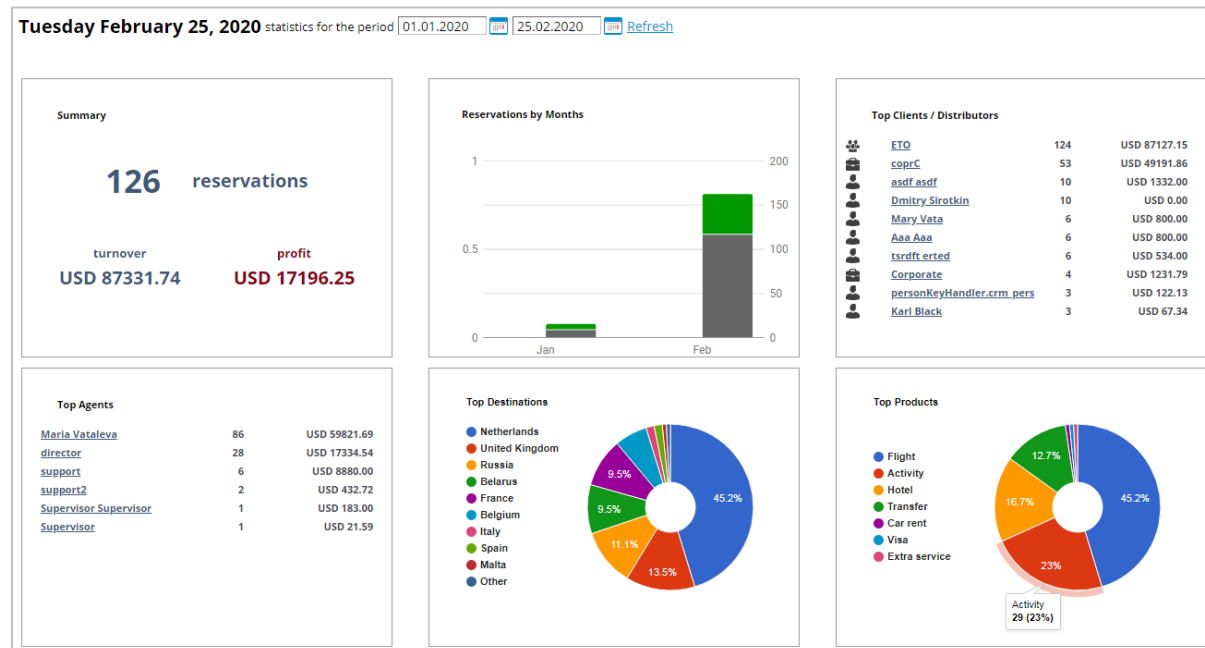

DASHBOARD

A new functionality “Dashboard” is introduced in Release 7.13. This feature will allow managers of companies to gather, process and analyze information about reservations in the system. Within the Home page of the system immediately after sign in there will be displayed statistics, which contain information about reservations, turnover and profit according to quantity, time periods, companies, users, destination and products.

Note: the described functionality is available for the users of tour operators of 1st level with “Director” and “Supervisor” roles.

Access:

✓ Home page >> News section

SCHEDULER OF OWN ACTIVITIES AND TRANSFERS

The module of scheduler is intended to be used as a tool to organize excursions and transfers provided by the suppliers with direct contracts. This module is available to users of tour operators of the 1st level with the «Director» and «Supervisor» roles.

Access:

✓ Self-operated products >> Scheduler

BO: ADDING MARKUPS AND THEIR CALCULATION ACCORDING TO THE LOGIC OF PAX/NIGHT

For the "Hotels" product it is possible to calculate the markup according to the logic of pax/night.

Access:

✓ Hotels' search results page

Markup is calculated according to the logic pax/night:

Your search: Hotel Victoria, Malta, 10.04.2020 - 12.04.2020 (2 nights), 1 room, 2 adults									
Found offers: 1 Sort by: Category ▲									
Results per page: 10									
Rating	Hotel Name	Supplier	Availability	Supplier price	Client price	Loyalty points	Actions		
	Loft Hotel ★★★★★ HOTEL Victoria, Malta Detailed description	Own Supplier	✓	Supplier From USD 400.00 for 2 nights	Client From USD 600.00 for 2 nights	60	Book Hide offers		
Room	Meal Type	Remarks	Supplier	Availability	Supplier price	Client price	Loyalty points	Actions	
Double	Room Only		Own Supplier	✓ There are available rooms	USD 400.00 (Standard)	USD 600.00 (Standard) Special cancellation conditions	60	Book	
Double	HBT Detailed description		Own Supplier	✓ There are available rooms	USD 600.00 (Standard)	USD 800.00 (Standard) Special cancellation conditions	80	Book	

Markup is calculated according to the standard logic:

Your search: Hotel Victoria, Malta, 10.04.2020 - 12.04.2020 (2 nights), 1 room, 2 adults									
Found offers: 1 Sort by: Category ▲									
Results per page: 10									
Rating	Hotel Name	Supplier	Availability	Supplier price	Client price	Loyalty points	Actions		
	Loft Hotel ★★★★★ HOTEL Victoria, Malta Detailed description	Own Supplier	✓	Supplier From USD 400.00 for 2 nights	Client From USD 500.00 for 2 nights	50	Book Hide offers		
Room	Meal Type	Remarks	Supplier	Availability	Supplier price	Client price	Loyalty points	Actions	
Double	Room Only		Own Supplier	✓ There are available rooms	USD 400.00 (Standard)	USD 500.00 (Standard) Special cancellation conditions	50	Book	
Double	HBT Detailed description		Own Supplier	✓ There are available rooms	USD 600.00 (Standard)	USD 700.00 (Standard) Special cancellation conditions	70	Book	

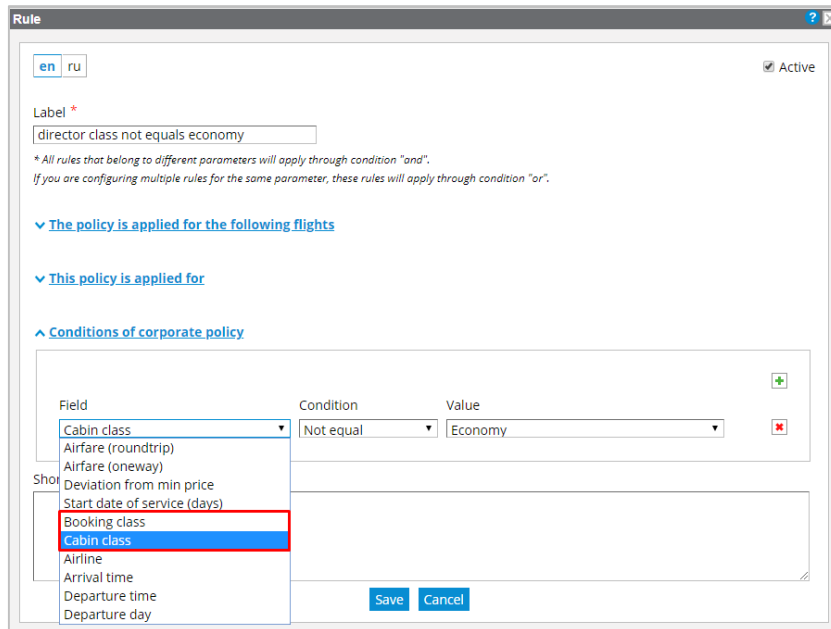

Note: in order to connect this module, please contact GP technical support.

BO: SETTINGS OF TRAVEL POLICY FOR FLIGHTS BY BOOKING CLASS

In new Release “Class” value for flight corporate policy has been divided into “Cabin class” and “Booking class” in the “Field” parameter. Such an implementation will allow to take into account a certain cabin and airline classes when applying corporate policy during searching and booking process of flights for corporate clients.

Access:

- ✓ Clients >> Corporate clients >> A certain client >> Corporate policy >> Flights >> A corporate policy scheme >> Conditions of corporate policy

Rule

en ru Active

Label *

director class not equals economy

* All rules that belong to different parameters will apply through condition "and".

B2B/B2C: FLIGHTS SEARCH BY SCHEDULE

In an interface of the new B2B and B2C there is now a possibility to search flights by schedule.

Access:

- ✓ Flights search form >> Advanced options >> «By schedule» search mode

The screenshot displays the flight search interface with the following elements:

- Navigation Bar:** HOTELS, **FLIGHTS** (active), ACTIVITIES, TRANSFERS, CARS, PACKAGES, VISA, SPORTS.
- Header:** Find the best Flight
- Trip Type:** Round trip, **One Way** (selected), Multi City.
- From:** London, United Kingdom
- To:** Paris, France
- Departing:** Mar 29, Sun
- Adults:** 1 (selected), 2, 3, 4+
- Children:** 0 (selected), 1, 2, 3+
- Promo Code:** [Empty input field]
- Advanced options:** [Advanced options ^](#)
- Search mode:** By Price, **By Schedule** (selected and highlighted with a red box)

Note: The described above functionality is only accessible when “By schedule” search mode of flights activated from the side of suppliers.

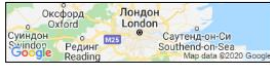

B2B: SEARCH OF HOTELS/FLIGHTS WITH THE APPLYING OF TRAVEL POLICY

In an interface of the new B2B it is now possible to search for hotels and flights using a corporate policy. The purpose of this functionality is to display restrictions (if any) for corporate clients during booking process.

Access:

- ✓ Search and book of hotels and flights for corporate clients only

B2B: CONSIDERING OF TRAVEL POLICY FOR SEARCH BY SCHEDULE FOR FLIGHTS

For corporate clients it is now possible to apply existing corporate policies to search for flights by schedule.

Access:

- ✓ Flights search form >> Advanced options >> «By schedule» search mode

The screenshot shows the flight search interface with the following elements:

- Navigation bar: HOTELS, **FLIGHTS**, ACTIVITIES, TRANSFERS, CARS, PACKAGES, VISA, SPORTS.
- Header: Find the best Flight
- Trip type: Round trip, **One Way**, Multi City.
- From: London, United Kingdom
- To: Paris, France

- Adults: 1 (selected), 2, 3, 4+
- Children: 0 (selected), 1, 2, 3+
- Promo Code: [Empty field]
- Advanced options ^
- Search mode: By Price, **By Schedule** (highlighted with a red box)

Note: The described above functionality is only accessible using the module of corporate sales and “By schedule” search mode of flights activated from the side of suppliers.

API: CHANGES FOR METHOD GET /ORDERS (LOGIC OF B2C ORDERS, SHORT RESPONSE)

GET /orders method has been unified, which will allow using it both to obtain a list of bookings by users of companies (TO1, TO2, TA, corporate clients) and B2C users (private clients) without a separate request to GET /ordersB2C method for B2C users (private clients). Apart from that, now it is possible to get general minimum information on reservations using a new parameter "*responseType*" (FULL / SHORT).

Access:

✓ API >> GET /orders

active	<input type="text"/>	fetch active requests (true) or requests from archive (false)	query	boolean
externalMemberId	<input type="text"/>	externalMemberId of the client person, if a reservation is made for private person	query	string
responseType	SHORT <input type="text"/>	responseType	query	string
limit	100 <input type="text"/>	if specified - fetch only this amount of orders, while sorting by reference number. Max value is 100	query	integer
offset	<input type="text"/>	use in conjunction with 'limit' parameter to implement paging	query	integer

API: CONSIDERING OF TRAVEL POLICY FOR SEARCH/BOOKING BY SCHEDULE FOR FLIGHTS

For corporate clients it is now possible to apply existing corporate policies to search for flights by schedule. In the API-based system, GET /searchFlightSchedule method is used to search for flights by schedule, and in response to the search and check of availability and prices, new parameters such as "corporatePolicyViolation", "corporatePolicy", "corporatePolicyId", "corporatePolicyName" and "corporatePolicyDescription" will be returned in the current POST /checkFlightPricesAndAvailability method.

Access:

- ✓ API >> API >> GET /searchFlightSchedule
- ✓ API >> POST /checkFlightPricesAndAvailability

API: NEW PARAMETERS PACKAGEDATE AND PACKAGEDURATION FOR DYNAMIC PACKAGES SEARCH

At the moment dynamic packages created in API do not have an identifier showing the start date and duration of a particular package. In release 7.13 new parameters "*packageDate*" (shows the date a package starts) and "*packageDuration*" (shows its duration in days) were added to the info container for each dynamic package in the response of GET /searchDynamicPackages method.

Access:

✓ API >> GET /searchDynamicPackages

API: CHANGE OF LOGIC FOR PASSWORD RESTORE

As a part of the API-based system, password recovery functionality for B2B and B2C users has been remodeled. A user will receive a link to be redirected to a page where it will be possible to change a password. Such a logic is implemented in order to not reset passwords when e-mail is known.

Access:

- ✓ API >> POST /restorePassword
- ✓ API >> POST /resetPassword (new method)
- ✓ API >> POST /restoreB2BUserPasswordWithApiKey/{apikey} (new method)
- ✓ API >> POST /resetB2BUserPasswordWithApiKey/{apikey} (new method)
