

GP Travel Enterprise Release 7.4 Presentation

September 19, 2018

Release 7.4

Dear clients and partners!

We are happy to announce **Release 7.4** of GP Travel Enterprise that includes a new channel manager connected to the system and further enhancements in available modules to connect and overall capabilities of the system.

Release 7.4: Highlights

NEW MODULES:

- ✓ Channel manager SiteMinder

ENHANCEMENTS IN EXISTING MODULES:

- ✓ Enterprise Management:
 - ✓ Display of channel manager's name (via which hotel is connected) in reservation
 - ✓ A new filter of reservation by channel manager
 - ✓ New default templates for vouchers and offers from search results
- ✓ B2B/B2C/API
 - ✓ Choice of available hotels during booking of self-operated excursions
- ✓ API
 - ✓ Original amount and original currency in different methods of API

1. NEW MODULES

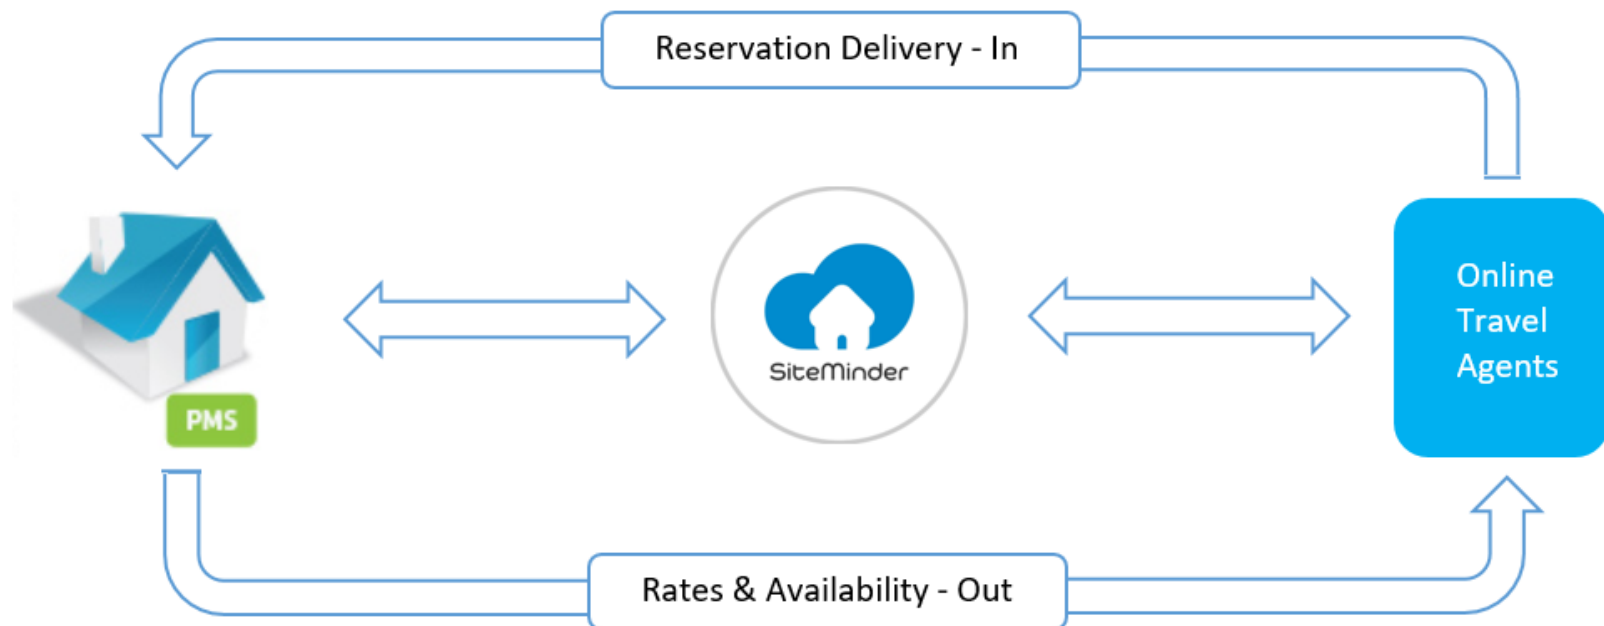

CHANNEL MANAGER SITEMINDER

SiteMinder provides the possibility to use their channel manager solution to automate the continuous exchange of rates, availability and reservations between hotels and your booking system to get rates and availability and send reservations on hotels back.

See more at <https://www.siteminder.com>

Note: in order to connect this module, please contact GP technical support.

2. ENHANCEMENTS IN EXISTING MODULES

ENTERPRISE MANAGEMENT: DISPLAY OF CHANNEL MANAGER NAME IN RESERVATION

To be able to view all the bookings that are done on hotels that are connected via channel manager that works on the basis of sending rates & availability into the system this information is added into reservation.

Access:

✓ Accommodation booking

ENTERPRISE MANAGEMENT: A NEW FILTER OF RESERVATION BY CHANNEL MANAGER

As it is possible now to connect several channel managers to the platform it is required to be able to display reservations by channel manager. To reach this goal a new field Channel manager was added in version 7.4 to the list of additional parameters of filters.

Access:

✓ **View reservations >> Additional parameters of Filters**
