# 1. ENHANCEMENTS IN EXISTING MODULES

## HOTELS: CALCULATE PRICE PER ROOM BASED ON CHOSEN ROOM TYPE AND EXTRA CHARGES ON DAILY RATES

Due to the fact that setting prices for hotels can often depend on surcharges or reductions to / from the base price, for example, a surcharge for a category or discount for single occupancy, in Release 7.7 it becomes possible to calculate price per room based on chosen room type. Also the possibility to configure extra charges to meals and extra beds was added. Extra charges can be added to number of guests in the room, room type, the duration of stay.

### Access:

- ✓ Selfoperated hotel >> Daily rates/Price-lists for surcharges

**Rates settings** **Room types**

Specify for room types those rooms from which the price should be calculated. If you need to set the price directly for the type of room without inheritance, then leave the field in the column "Calculate price based on" empty.

Room type	Calculate price based on
Superior	Standard
Standard	
Delux	Standard

**Save** **Cancel**

**Price-list for Surcharges "2"**

**General information** **Prices for Surcharges**

**Surcharge for room type**

The surcharge is added to the basic room type configured per each type

	Surcharge *
Delux	20 EUR
Superior	20 EUR

**Discounts / surcharges for special accommodations at main beds**

Rules are configured only for the number of guests allocated on main beds.  
The discount / surcharge applies to the basic room type selected per each rule

Room type	Min. guests	Max. guests	Discount / surcharge
Standard	2	4	10 %

**Discounts / surcharges for length of stay**

The discount / surcharge applies to the basic room type selected per each rule

Room type	Min. nights	Max. nights	Discount / surcharge
Standard	2	10	15.0 %

**Note:** available only when daily rates module is on. If you want to connect the module, please contact GP support.

## HOTELS: CLOSE TO ARRIVAL / DEPARTURE

Some hotels have specific logic of arrival and departure days, for example, a hotel may forbid check-in on Mondays, and check-out on Thursdays or to close check-in and out on any day.

Now this functionality is supported in the system when setting daily rates, standard price lists and tariffs.

## SEARCH&BOOK: FIELD “CITIZENSHIP” ON SEARCH FORM

Sometimes the citizenship of guests is one of the key parameters when selling hotels under direct contracts, as well as through external suppliers.

The value of citizenship may determine the price, cancellation conditions and other components. For such cases, the possibility of choosing citizenship on the hotel search form via B2B was added, as one of the main search parameters.

### Access:

- ✓ Hotel search form

The screenshot displays a hotel search interface. At the top, there are tabs for 'Hotels', a flight icon, a train icon, a bus icon, a car icon, and a 'More' button. Below these is a 'Popular destinations' dropdown menu. The 'City / region' field is empty. A link 'select from the list' is visible. The 'Check in' date is 04.02.2019, and the 'Nights' are set to 1. The 'Check out' date is 05.02.2019. The 'Rooms' field is set to 1. The 'Adults' field is set to 2, and the 'Children' field is set to 0. The 'Citizenship of guests' dropdown menu is highlighted with a red box and shows 'Monaco' as the selected option. Below this is a link 'Additional search options'. At the bottom, there are 'Search' and 'Reset' buttons.

**Note:** available only when daily rates module is on. If you want to connect the module, please contact GP support.

## PELECARD: BREAKDOWN OF PAYMENTS

Pelecard payment system supports the ability to divide the payment for the service into a certain number of payments. For example, when booking a service, you can make only the first payment, and the rest will be automatically removed from the card during the specified period.

Now this logic is available in release 7.7 when paying for services with Pelecard, allowing the client to choose the number of payments the total amount should be broken into. This operation is available only for cards of those banks that support this feature.

## B2B/HUB: CHINESE LANGUAGE SUPPORT

Now GP Travel Enterprise supports Simplified and Traditional Chinese languages. At the moment it is possible not only to enter information in Chinese in Inventory but also make search by locations in Chinese and get a hotel description in Chinese from external suppliers if they support the language.

### Access:

#### ✓ Search form

The screenshot shows the search interface in Chinese. The top navigation bar includes 'Hotels' and other travel-related icons. The main search area is titled '找到最好的酒店' (Find the best hotel). Below the title, there is a '选择目的地' (Select destination) section with a dropdown menu showing '无拉港' (Larabang) and '无拉港, 马来西亚' (Larabang, Malaysia). The date selection section shows '2019-1月-30周三' (Jan 30, 2019) and '2019-2月-1周五' (Feb 1, 2019). The number of guests is set to 1. The form also includes a '搜索酒店' (Search hotel) button.

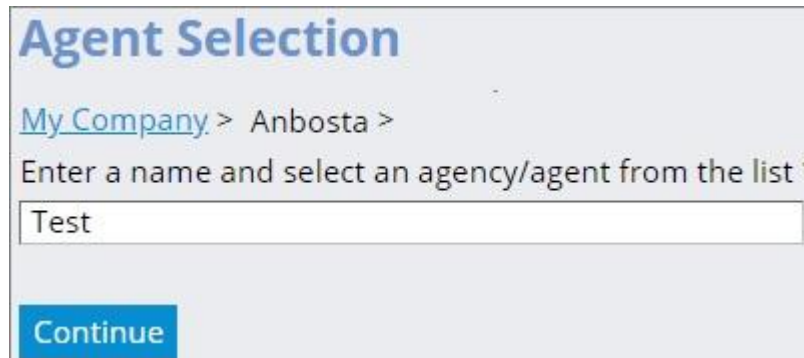

**Note:** if you want to add Chinese into your account, please, please contact GP support team.

## B2B: NEW INTERFACE OF CREATING RESERVATION FOR AGENT

In release 7.7 interface of creating reservation for agent was changed. Now the list with variants of agencies (agents) provides an opportunity to choose the necessary variant by entering a part or full name of the client.

**Access:**

- ✓ **Creating reservation for agent**

**Agent Selection**

[My Company](#) > Anbosta >

Enter a name and select an agency/agent from the list \*

## B2B: SEND SYSTEM NOTIFICATIONS FROM TOUR OPERATOR'S EMAIL

In version 7.7 it became possible to send notifications to suppliers from service manager email. In case of some questions appear, a supplier will be aware of manager's email, will be able to contact him and clarify necessary information.

## B2C: BOOKING A TOUR WITH GENERAL DESCRIPTION AND REFERENCE TO REAL HOTELS

In new release it became possible to book tours with reference to real hotels on B2C. Now you can place on the B2C-site a program with a general description and a single price with reference to real hotels, so that while booking such program there will be a write-off of allotments.

Access:

✓ B2C >> Main page

The screenshot displays the GP Travel Enterprise website interface. At the top, the navigation bar includes links for HOME, HOTELS, FLIGHTS, ACTIVITIES, TRANSFERS, CARS, PACKAGES, VISA, and CONTACT US. The main content area features a large banner for the '7-DAY GRAND TOUR FROM MUNICH' with a price starting at USD 1000.00 and a 'Book Now' button. Below the banner is a large image of a historic bridge over a river. To the right of the image, the 'PACKAGE DESCRIPTION' states: 'A vacation in Austria bestows many moments of bliss that will remain with you long after you leave. A selection of extraordinary travel experiences, stunning vistas, imposing Alpine peaks, beautiful lakes, majestic rivers and historical cities will ensure that your trip will be an impressive and unforgettable moment in your life.' Below this, the 'PACKAGE HIGHLIGHTS' section lists several features: Duration: 7 Days, Start Date: 2019-02-01, End Date: 2019-02-08, Transportation: Bus, and Travel Style: Discovery. A list of specific highlights includes seeing the Eiffel Tower and the Arc de Triomphe, enjoying a great view from the top of Swiss Alps, visiting Vatican City, tasting local Bavarian beer, and tasting Belgian chocolate and Dutch cheese.
