2. Enhancements in Back-Office

We added new logic in terms of use of tariffs and discounts of own hotels - **Late booking less than X days prior to the service rendering date.**

Now it is possible to set up and apply the following settings in back office for Hotels:

- If it needed to book some tariff or apply the discount, it only shows/applies if the arrival date is in the next 30 days
- If to try to book some tariff or apply the discount 31 days or more before the arrival date, then the tariff does not show or discount doesn't apply.
