

# GP Travel Enterprise Release 8.4

## Presentation

October 23, 2020

Dear clients and partners!

We are happy to announce Release 8.4 of GP Travel Enterprise that introduces new module “Package Tours” for combining certain own Hotels, Transfers, Activities and/or Charters into one Tour, includes new features of the existing functionality, enhancements in available modules as well as overall capabilities of the system.

For scheduling the delivery dates please contact our support team.

## Enhancements

New capabilities of new version of the Website:

- ✓ Top Tours
- ✓ View invoices
- ✓ Passport data for booking Own Hotels
- ✓ Order summary in details
- ✓ Commission on search results

Enhancements in Back-Office:

- ✓ Package Tours
- ✓ Configuration of tourist fields for booking
- ✓ Commission settings for Own Cars
- ✓ Photos display order for Own Products
- ✓ Extension of private clients profile by additional info for charters
- ✓ Possibility to enter payment date manually when paying for issued invoice

## Enhancements

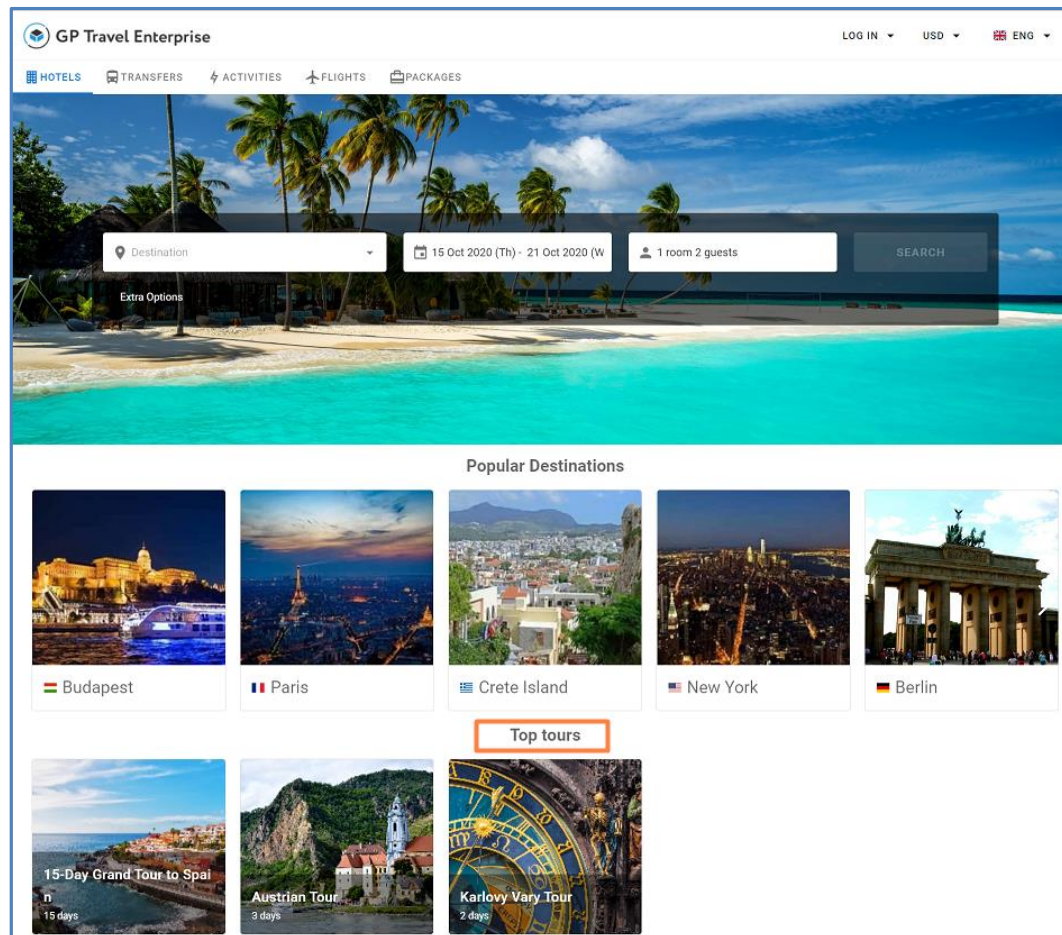

API changes:

- ✓ Package Tours
- ✓ Accommodation price breakdown
- ✓ Fare rules on charters
- ✓ List of roles for creating/editing users of own company/supplier/client
- ✓ The cheapest offers only on search of Own Hotels
- ✓ Tourist fields for booking
- ✓ Other changes in API

# **1. New Capabilities of New Version of the Website**

To increase customers' sales, the Top Tours block was added to the main page of the website, with the ability to go to the tour's description page to view the details, price and availability calendar.

**Access:**  
Main page

**Note:** in order to connect new version of website, please contact GP technical support or your account manager

We continue extending capabilities of private cabinets on the new web site and now it is possible to view and print orders' invoices at different levels.

**Note:** in order to connect new version of website, please contact GP technical support or your account manager

For the situations when your embassy requires passport data for hotel vouchers – we have added the possibility to specify guest passports during hotel bookings.

After the hotel is booked – the voucher will contain both guest names and their passport details.

### Guest 1

Please fill in information in English

Salutation*	First Name*	Last Name*	Citizenship*
<hr/>			
Phone		E-mail*	
<hr/>		<hr/>	
Attention! Your voucher will be sent to this email

Tour operators and tour agencies now have the possibility to customize the search without or with displaying travel agency commissions.

The screenshot shows the search interface of the GP Solutions website. At the top, there is a navigation bar with icons and labels for HOTELS, TRANSFERS, ACTIVITIES, FLIGHTS, and PACKAGES. Below this is a large search form overlaying a tropical beach background. The form includes several input fields: a 'Destination' dropdown, a date range '13 Oct 2020 (Tu) - 19 C', a guest selection '1 room 2 guests', a 'SEARCH' button, a 'Promo Code' field, a 'Star rating' dropdown, a 'Meal Type' dropdown, and a language selection 'Германия' with a close icon. Two specific elements are highlighted with orange boxes: 'Extra Options' and a checked checkbox for 'Show commission'.

### Access:

Main page >> Extra options

**Note:** in order to connect new version of website, please contact GP technical support or your account manager

## **2. Enhancements in Back-Office**

Starting from Release 8.4 we provide you a possibility to create **Daily Itinerary** for Package Tours. Module works on the basis of combining your own products, such a Hotels, Transfers, Charters and Excursions/Events.

Search and book of Package Tours available only on the new website version and through the REST API.

**Description**  
Karlovy Vary (Karlsbad) is a spa town in western Bohemia in the Czech Republic. It has been popular with tourists since the 19th century for its thermal springs. In the resort area along the banks of the river there are several colonnades for walking. The Hot Spring Colonnade houses the famous Vřídlo thermal spring and a 12-meter high hot spring.

**Note:** module is billable, to enable the module please contact GP technical support or your account manager

For flexibility to be able to customize what data about travelers is required on booking we have implemented within Back Office the ability to configure the list of fields, and whether they are mandatory or optional.

Thus depending on specifics of your business you can specify that for example for Charter bookings you don't need passports or that for Hotels bookings you want to get client address.

### Access:

Settings >> Tourist booking fields settings

Now it's possible to set up commission on Cars contract settings (to add the settings of commission provided by a supplier).

The screenshot displays the 'Commission' settings for 'Cars' in the GP Solutions web application. The main window shows the 'Commission' tab selected, with a message 'Commission not found' and a 'Create' button. A modal window titled 'Commission' is open, showing the 'Commission' sub-tab. The modal contains the following fields and table:

- General information** tab selected.
- Currency for commission calculation:** USD (dropdown).
- Commission per service:** 5.0 % (input field with a percentage icon).
- Commission for extra services** table:

Name	Status	Commission
Base commission		0.0 %

At the bottom of the modal, there are 'Save' and 'Cancel' buttons.

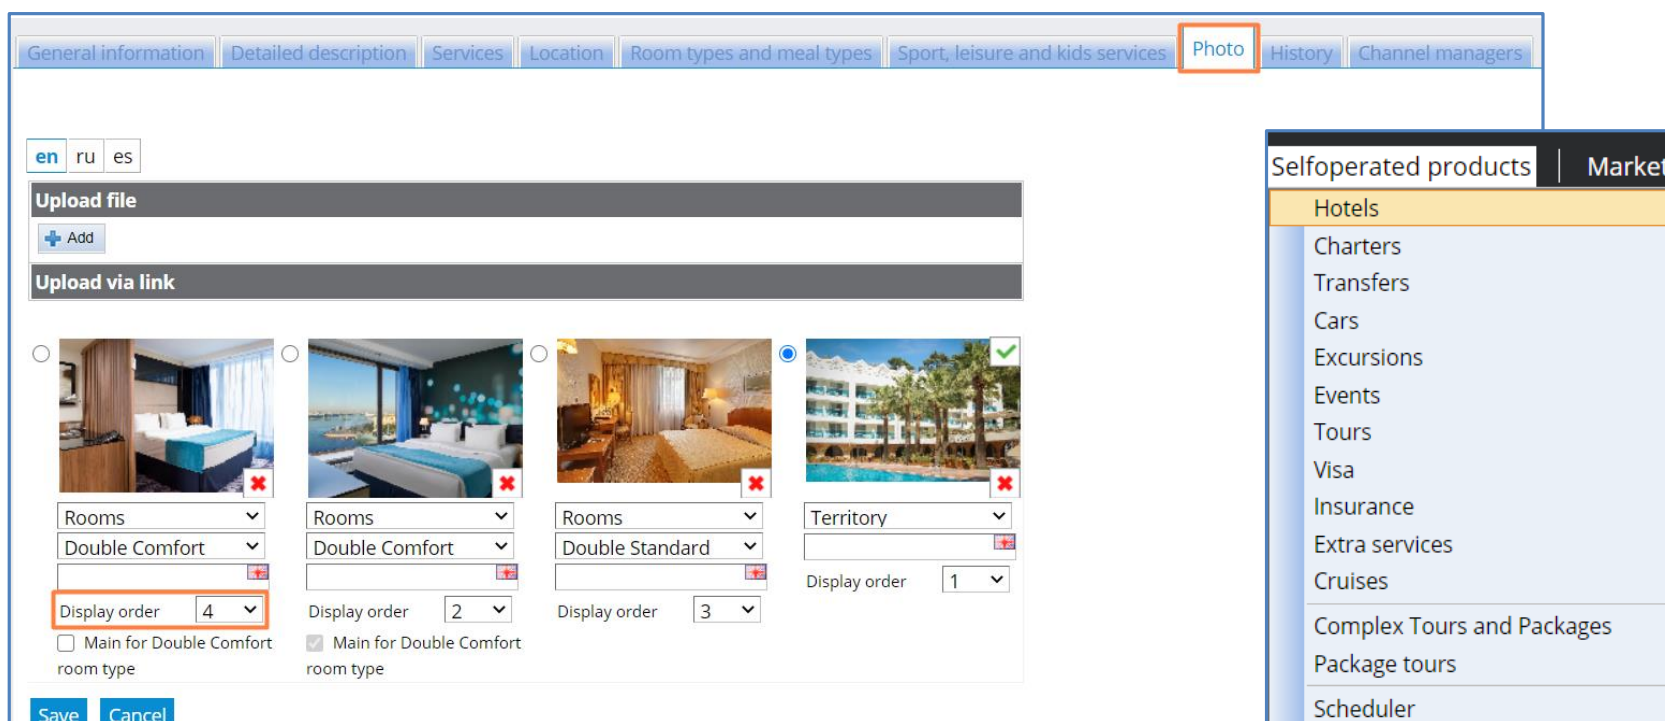

### Access:

Selfoperated products >> Cars >> Certain car >> Prices >> Commission

If you want to show photos within the photo galleries in a specified order – now you can sort photos by specifying a serial number in the settings.

Serial number of photos displaying can be indicated not only in the gallery itself, but also on the website for search and booking in the description to set the order in which the photo gallery should be showed to the clients.

We added additional informative blocks to the private clients' profile, which may be important for traveling:

- Information about allergy,
- Information about disability.

The screenshot displays the 'Details' tab of a client's profile. The 'Personal data' section contains the following fields:

- Title: Ms. (dropdown)
- Last name (orig.):
- First name (orig.):
- Middle name:
- Date of birth:
- Place of birth:
- Citizenship: Italy (dropdown)

Below the 'Personal data' section, there are two new fields highlighted with orange boxes:

- Information about allergy:
- Information about disability:

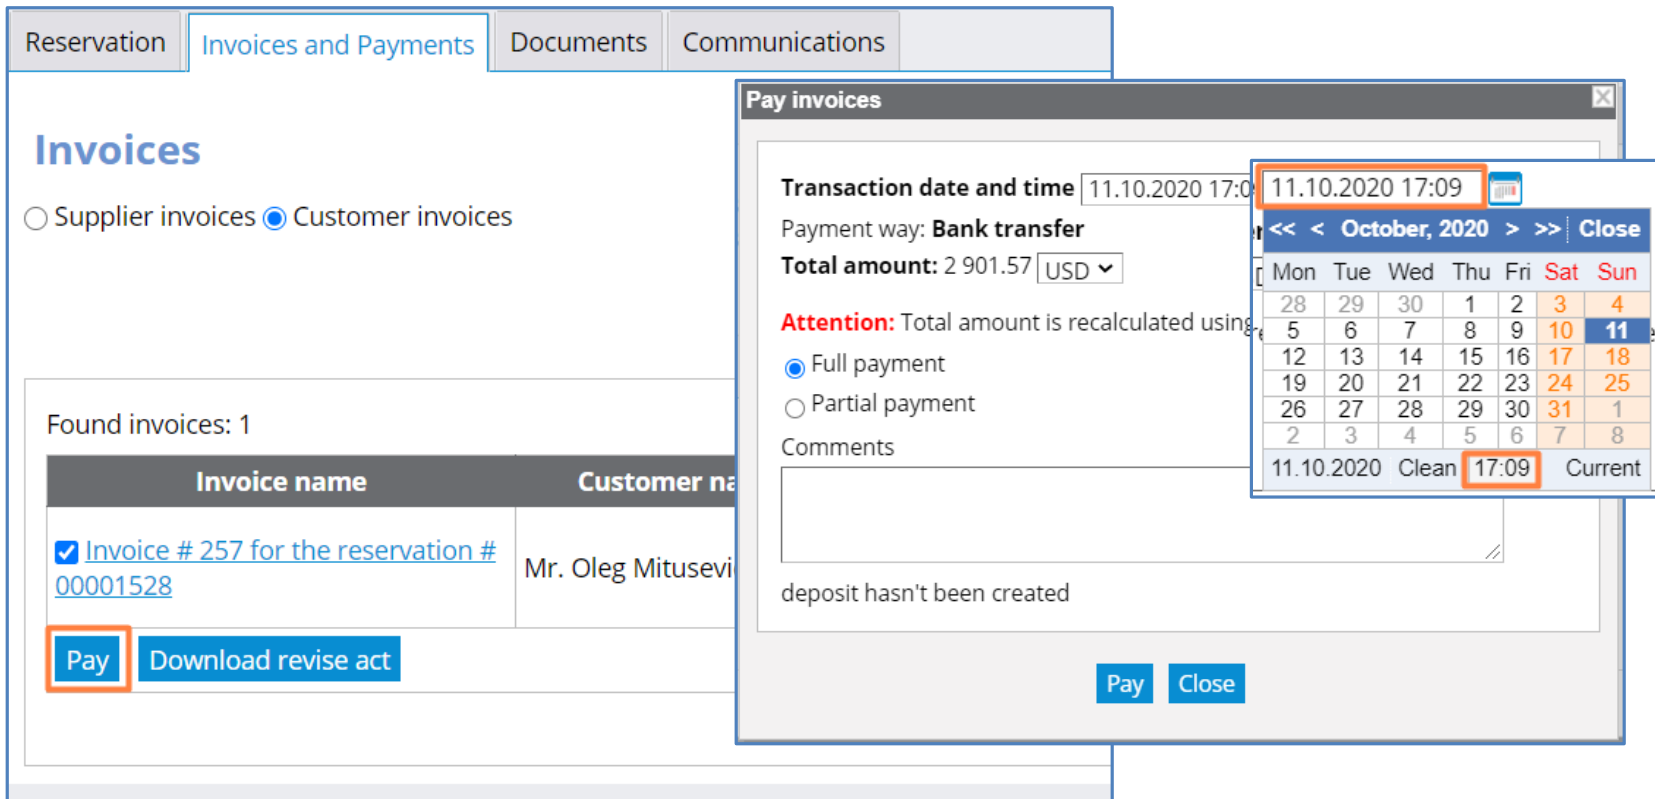

The 'Clients' menu is open, showing the following options:

- Agencies / Distributors
- Corporate clients
- Private clients (highlighted)

### Access:

Clients >> Private clients >> Certain Client >> Details

While paying for issued invoice, now it's possible to enter payment date manually. It is necessary in case the payment bill outside the system was made in the past and you need to indicate the exact date of payment.

### **3. API Changes**

For adding Package tours to the Website, the new methods were added to the REST API:

- **GET /packageTours** - to get the list of Package Tours set up in Back-Office
- **GET /searchPackageTours** - to search Package Tours to see available offers for booking
- **GET /packageTourInfo** - to get a detailed description of a corresponding Package Tour
- **GET /orders** - to get details on booked Package Tour using an existing method on reservations

Package		Show/Hide	List Operations	Expand Operations	Raw
GET	/searchPackageTours				Search dynamic packages
GET	/packageTourInfo				Get package tour info
GET	/searchDynamicPackages				Search dynamic packages
GET	/packageTours				Get package tours

Orders		Show/Hide	List Operations	Expand Operations	Raw
GET	/orders				Get orders

**Note:** see the details on API changes here:

[https://docs.software.travel/en/index.php?title=GP\\_Travel\\_Enterprise\\_API\\_Release\\_8.4](https://docs.software.travel/en/index.php?title=GP_Travel_Enterprise_API_Release_8.4)

Now it is possible to get an information on price breakdown for Accommodation via API. For this purpose a new method **GET /accommodationPriceBreakdown** was added:

Request:

- offerKey - the possibility to get price breakdown

Parameters				
Parameter	Value	Description	Parameter Type	Data Type
offerKey	<input type="text" value="(required)"/>	Unique id for offer used to get tariff details.	query	string

Response with array of the following info on prices by nights:

- date
- weekdayNumber
- weekdayName
- currency
- amount

Additionally to receive details on extra services included into price

- name
- currency
- amount

GET	/accommodationPriceBreakdown
<b>Response Class</b>	
Model	Model Schema
<b>PriceBreakDownList {</b>	
<b>priceBreakDowns</b> (array[PriceBreakDown], optional): Break down list	
<b>}</b>	
<b>PriceBreakDown {</b>	
<b>date</b> (string, optional): Date,	
<b>weekdayNumber</b> (integer, optional): Week day number,	
<b>weekdayName</b> (string, optional): Week day name,	
<b>name</b> (string, optional): Extra service name,	
<b>currency</b> (string, optional): Currency,	
<b>amount</b> (number, optional): Amount	
<b>}</b>	

**Note:** see the details on API changes here:

[https://docs.software.travel/en/index.php?title=GP\\_Travel\\_Enterprise\\_API\\_Release\\_8.4](https://docs.software.travel/en/index.php?title=GP_Travel_Enterprise_API_Release_8.4)

Now it is possible to enter text descriptions for Fare Rules - so that you can specify different conditions and rules, for example, departure terminal, etc.

### Response Body

```
{
  "flightRules": [
    {
      "segment": "WAW - TXL",
      "brandedFareName": "Standard",
      "brandedFareDescription": [
        "Refund: ticket can be refunded at full amount up to 14 days before flight"
      ]
    }
  ]
}
```

**Note:** see the details on API changes here:

[https://docs.software.travel/en/index.php?title=GP\\_Travel\\_Enterprise\\_API\\_Release\\_8.4](https://docs.software.travel/en/index.php?title=GP_Travel_Enterprise_API_Release_8.4)

An authorized user should only have access to the appropriate roles when creating or editing users or supplier/customer of his own.  
For this purpose a new method **GET /availablePersonRoles** was added to REST API.

Persons

Show/Hide | List Operations | Expand Operations | Raw

GET

/persons

Get persons

GET

/availablePersonRoles

Get available person roles

Parameters

Parameter	Value	Description	Parameter Type	Data Type
personId	<input type="text"/>	Unique person identifier. Must be entered if you would like to get available roles for an existing person. Leave it empty for new person	query	integer
companyType	<div><div></div><div>INTERNAL_SUPPLIER TOUR_OPERATOR TOUR_AGENCY CORPORATOR</div></div>	Company type	query	string

**Note:** see the details on API changes here:

[https://docs.software.travel/en/index.php?title=GP\\_Travel\\_Enterprise\\_API\\_Release\\_8.4](https://docs.software.travel/en/index.php?title=GP_Travel_Enterprise_API_Release_8.4)

Now it is possible to get the hotel best option when working with your own hotels. For this purpose the new parameter *BestOnly* in **GET /searchAccommodation** was added.

Accommodations	
GET	/suggestHotels
GET	/searchAccommodationFilter
GET	/searchAccommodation

bestOnly	<input type="text" value="v"/>	Search only the best rate available at the hotel property	query	boolean
----------	--------------------------------	---	-------	---------

**Note:** see the details on API changes here:

[https://docs.software.travel/en/index.php?title=GP\\_Travel\\_Enterprise\\_API\\_Release\\_8.4](https://docs.software.travel/en/index.php?title=GP_Travel_Enterprise_API_Release_8.4)

Due to the fact that certain tourist fields are often required for booking certain products, now it is possible to configure the list of fields that are required for booking at the TO1 level.

For this purpose the new method **GET /touristBookingFields** was added.

Booking	
GET	/paymentOptions
GET	/paymentByLoyaltyPoints
GET	/paymentMethods
GET	/touristBookingFields

## Response Body

```
{
  "bookingFields": {
    "PASSPORT_ISSUE_COUNTRY": "OPTIONAL",
    "CITIZENSHIP": "OPTIONAL",
    "PREFIX": "MANDATORY",
    "PASSPORT_ISSUE_DATE": "OPTIONAL",
    "PASSPORT_NUMBER": "OPTIONAL",
    "PHONE": "MANDATORY",
    "PASSPORT_EXPIRE_DATE": "OPTIONAL",
    "BIRTHDATE": "OPTIONAL",
    "EMAIL": "OPTIONAL"
  }
},
```

## Parameters

Parameter	Value	Description	Parameter Type	Data Type
offerKey	pRiyApDtGqNAYdEh	uniqueId field from search response	query	string

**Note:** see the details on API changes here:

[https://docs.software.travel/en/index.php?title=GP\\_Travel\\_Enterprise\\_API\\_Release\\_8.4](https://docs.software.travel/en/index.php?title=GP_Travel_Enterprise_API_Release_8.4)

1. **GET /orders** and **GET /ordersB2C** – there are new parameters, such as *dueToPay*, *transport*, *status*, *supplierId*, *supplierCompanyName*, *startDateTime*, *endDateTime*, *customerPaymentStatus* and *supplierPaymentStatus*.
2. **GET/POST/PUT /[Service]Info** – there is a new parameter *orderNumber* for images.
3. **GET /privateClients** and **PUT /update{id}** – there are new parameters *allergyInfo* and *disabilityInfo*.
4. New method **GET /contractGroups** was added.

```
"images": [  
  {  
    "mainImage": false,  
    "imageTypeId": 0,  
    "orderNumber": 0,  
    "title": {  
      "en": ""  
    },  
  },  
]
```

**CRMPerson**

GET /privateClients

Response Body

```
{  
  "receiveMarketingEmail": true,  
  "extraInfos": [  
    {  
      "type": "ALLERGY",  
      "info": "An allergy on life"  
    },  
    {  
      "type": "DISABILITY",  
      "info": "INVALID XDXD"  
    }  
  ]  
}
```

### Contracts

GET /contractGroups

**Note:** see the details on API changes here:
