1. New Capabilities of New Version of the Website

We added the chat in the Order to let the user request for the information regarding certain order.

The screenshot displays the 'Order # 7191 SA Tour 7 Days' page. The order is confirmed and completed. The accommodation is 'Radisson Red V&A Waterfront, Cape Town' for 6 nights from May 14 to May 20, 2021. The supplier price is €1,019.37 and the client price is \$1,087.19. A chat window titled 'Chat Order # 7191' is open, showing a message from 'GP director' dated 2021-04-19 11:54: 'Hello, I have a question'. The chat input field contains the text 'Enter a message...' and 'Could you'. A blue 'SEND' button is visible. An orange arrow points from the chat input field to a blue speech bubble icon in the bottom right corner of the page.

2. Enhancements in Back-Office

We improved the work with private clients for TO1. You can add the list of private clients to the system via Excel file.

The screenshot displays the 'Clients' management interface. At the top, there are tabs for 'Agencies / Distributors', 'Corporate clients', 'Private clients' (which is selected), and 'Sales settings'. Below the tabs, there is a 'Filter' button and a message 'Found private clients: 686'. To the right of the message are buttons for 'Create', 'Edit', and 'Mass mail'. Further right, there is a 'Results per page' dropdown set to '20', and a table of page numbers (1, 2, 3) with '1' selected. An orange box highlights an 'Excel' icon in the top right corner of the table area, with an orange arrow pointing from it to the 'Import clients' modal window.

The 'Import clients' modal window is open, showing an 'Upload file' section with a '+ Add' button. Below this, it states 'Import duration is less than 30 minutes' and has a 'Close' button at the bottom.

Now it is possible to manage Car Rental and Excursions in API, namely – to set up contracts, prices, availability regarding supplementary settings (extra services, discounts, cancellation policy, commission). It is for Supplier and TO1.
