GP Travel Enterprise Release 9.5.1

Presentation

September 26, 2023

GP Solutions

Dear clients and partners!

We are happy to announce Release 9.5.1 of GP Travel Enterprise that introduces new capabilities of Internet Booking Engine, enhancements in available modules as well as overall capabilities of the system. Additionally some changes in API were done.

For scheduling the delivery dates please contact our support team.

GP Solutions

Enhancements

New capabilities of the Website:

✓ Menu Enhancements
✓ Transfers: Only Available Destinations to be Shown on Search
✓ Transfers: Day/Night Prices
✓ Car hire: Changed Validation Logic for Driver Age
✓ Flights: Default email for Amadeus and Travelfusion
✓ Payments: Save Bank Fee within Reservation
✓ Payments: Pay Online for Modification in Reservations
✓ Finance: Commission VAT for Offline Services
✓ Manual Correction: Import Tourists from File
✓ Merge Manager and Agent for TO1 Reservations
✓ Custom Documents: Extended Configuration
✓ Features from Back on Front: Mass Edit, Show Summary of Reservations, View History, Move to Archive, Calculations and Settings within Reservations
✓ Add-ons Extensions

Minor changes in Back-Office:

✓ Car hire: Configure Tourist Booking Fields
✓ Agencies: City Added to Agency Upload Excel File

GP Solutions

Enhancements

API changes:

We added new methods and parameters for the following products and functionalities:
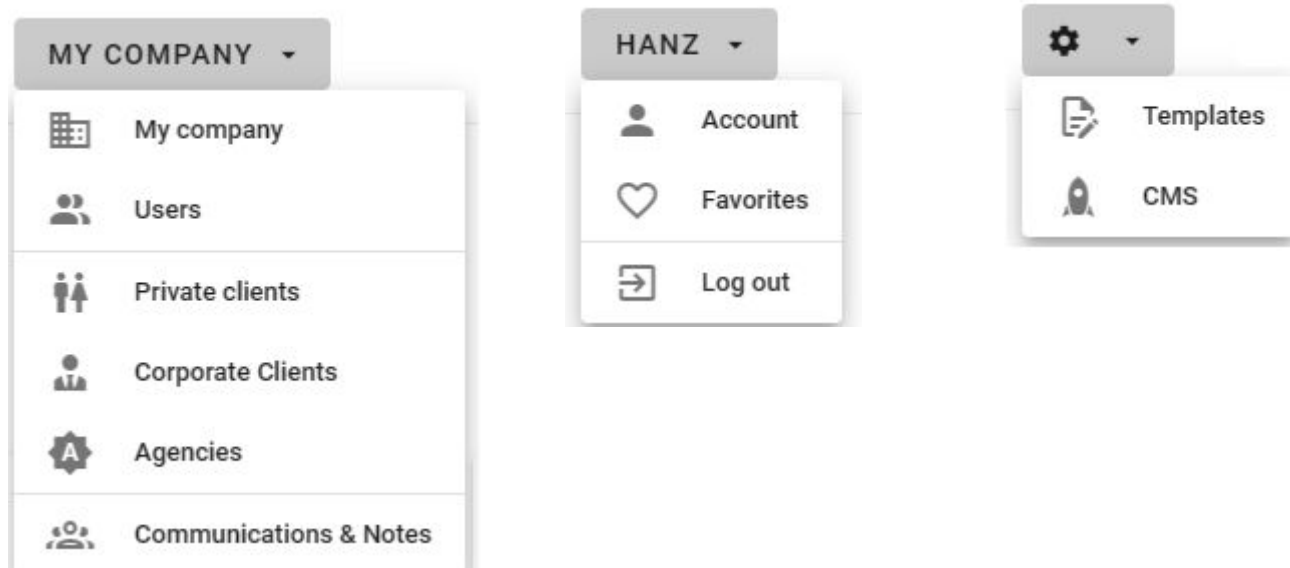

- ✓ **Locations**
- ✓ **AccommodationContracts**
- ✓ **Transfers**
- ✓ **Booking**
- ✓ **Orders**
- ✓ **Search**
- ✓ **DocumentTemplates**
- ✓ **BusinessIntelligence**

**Note**: see the details on API changes here: https://gp-team.atlassian.net/wiki/spaces/GPTEAPI/pages/2105769985

1. New Capabilities of the Website

GP Solutions

Within Web Site more and more functionality is being added, and thus **menu** became more extended and was a bit re-arranged:

- Instead of word "Settings" in menu we just show icon ⚙
- For TO1 users "Favorites" were moved within User profile section
- All clients are available within "My company" and also there we have added "Communications & Notes" (from Extended CRM module)
- Added horizontal and vertical separators for logical blocks of menu

GP Solutions

If you sell only your own transfers in just few locations - now we have possibility to configure search form to show **only available departures & destinations** of your transfers (not the whole world as it was previously).
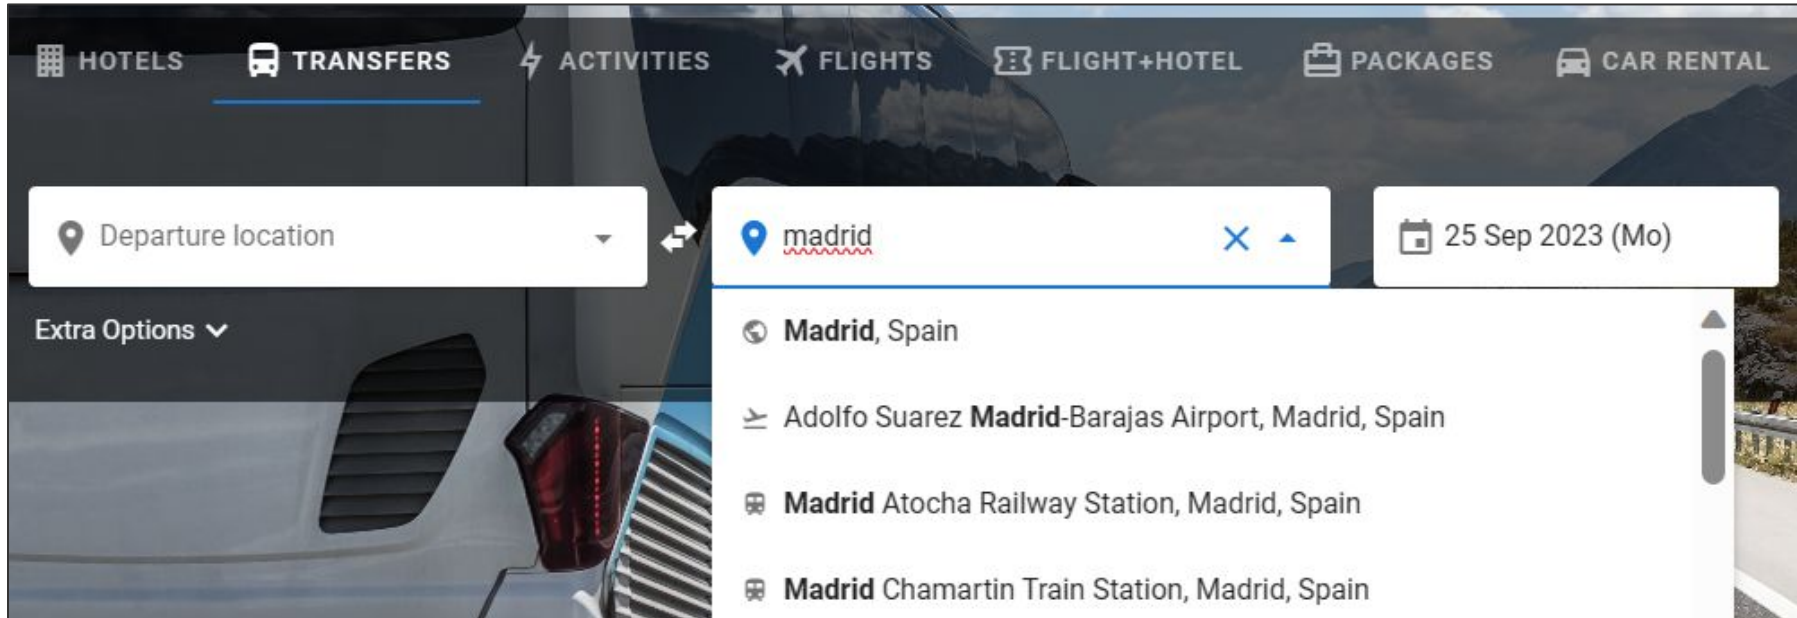

Access: Main page >> Search transfers
Note: Please, contact our technical support to turn ON this logic, if you need.

GP Solutions

Day or Night Transfers may be sold at different prices. In Release 9.5.2 we have added possibility to view time range, for each which price relates.

**GP Solutions**

The driver age is being requested by Car Hire vendors to assure that allowance of the car. Previously it was specified on search and it was not possible to change it during booking. From Release 9.5.1 we have added possibility to **specify another age** during booking and validate if it still fits.

| HOTELS | TRANSFERS | ACTIVITIES | FLIGHTS | FLIGHT+HOTEL | PACKAGES | CAR RENTAL | EXTRA SERVICES | CO |

Pick-up point | Drop-off point | 25 Sep 2023 (Mo) - 1 Oct 2023 (Su) | Age: 18

from 18 to 120

Driver

Salutation | First Name* | Last Name* | Date of Birth*
02/04/1959

Phone*

9

GP Solutions

Usually when there is flight booking, then information from booking form with e-mail and phone of travelers is being transferred to suppliers. In Release 9.5.1 we have added extension to allow to specify default e-mail and phone of tour operator in config and send to Amadeus and Travelfusion only these contacts (while travelers details are only stored for Tour Operator).

Note: Please, contact our technical support if you want to replace current behavior with this logic.

GP Solutions

For online payments with credit cards some bank fee may be added (usually +3% from the price). This amount is just added to the price of reservation and transferred to payment gateway. But previously within list of reservations this additional amount was not shown.

In Release 9.5.1 we have implemented additional logic to be able to **save this amount of bank fee as additional Offline Service**. In case of credit card payments - it is automatically added.

Note: Please, contact our technical support if you want to replace current behavior with this logic.

GP Solutions

If the booking was paid via bank card and then modified - the system calculates extra amount to be charged and gives possibility to pay online with bank card as well.

GP Solutions

In the form to fill in Offline Services additional field "Commission VAT" was added.

Supplier price

Currency	Amount*	Commission %	Commission
EUR ▾	EUR 0	%	EUR 0

Cancellation conditions

◉ No fees   ○ Calculate cancellation fees

☑ Auto-calculate client price when changing supplier price

Client price

Markup %	Markup	Exchange rate	Apply actual rate
	0	1	

Cancellation conditions

◉ No fees   ○ Calculate cancellation fees

Currency	Amount*	Commission %	Commission
EUR ▾	EUR 0	%	EUR 0

Commission VA...	Commission VAT
%	EUR 0

◉ Specify only primary traveler   ○ Specify all travelers

Traveler (-s)
Tom Boris ▾

GP Solutions

For those, who work with group bookings, additional enhancement from Release 9.5.1 may be useful
- to import names from Excel file.
You can download sample with this file structure, and then make **bulk import of all names** via it.

14

GP Solutions

Within system there are "Managers" - who are responsible for certain sales channel (e.g. Agency or B2C sales) and Agents - who usually sell products to end-consumers.
In some business models when the same person performs these two actions - having two different fields in reservation is not needed. In Release 9.5.1 the possibility to configure only one field was added.

Note: Please, contact our technical support if you want to replace current behavior with this logic.

GP Solutions

For custom documents that you can configure by yourself from Web Site, we have added some extensions:

- Ability to set Title, Language and Visibility of documents
- Button "Add" to add new template
- Possibilities to Copy, Deactivate and Delete documents

Document templates

ADD

#	Title	Document type	Language	Visibility	Active	Edit	Actions
6168786	Test	test	en	Tour operator 1st level ✏	Hidden	✏	copy delete
6010731	Quotation	Quotation	en	Tour operator 1st level ✏	Active	✏	copy delete
6010730		Client Invoice	en	Tour operator 1st level ✏	Active	✏	copy delete
6010729		Agent Invoice	en	Tour operator 1st level ✏	Active	✏	copy delete

Rows per page: 10 ▾   1-4 of 4   <   >

GP Solutions

We continue adding previous functionality from Back Office to Web Site to fully support all capabilities there and the following features have been added in 9.5.1:

- Mass Edit Reservations
- Summary on reservations with applied filter.
- Reservation history
- Move to archive
- Calculations and Settings

GP Solutions

For those who use "Add-ons" module, additional enhancements have been made - now it's possible to select multiple services within one booking and see extended summary with what was chosen.

2. Enhancements in Back-Office

GP Solutions

In previous releases we have added possibility to configure, which booking fields for travelers should be shown. Now we have added similar extension for car hire product.
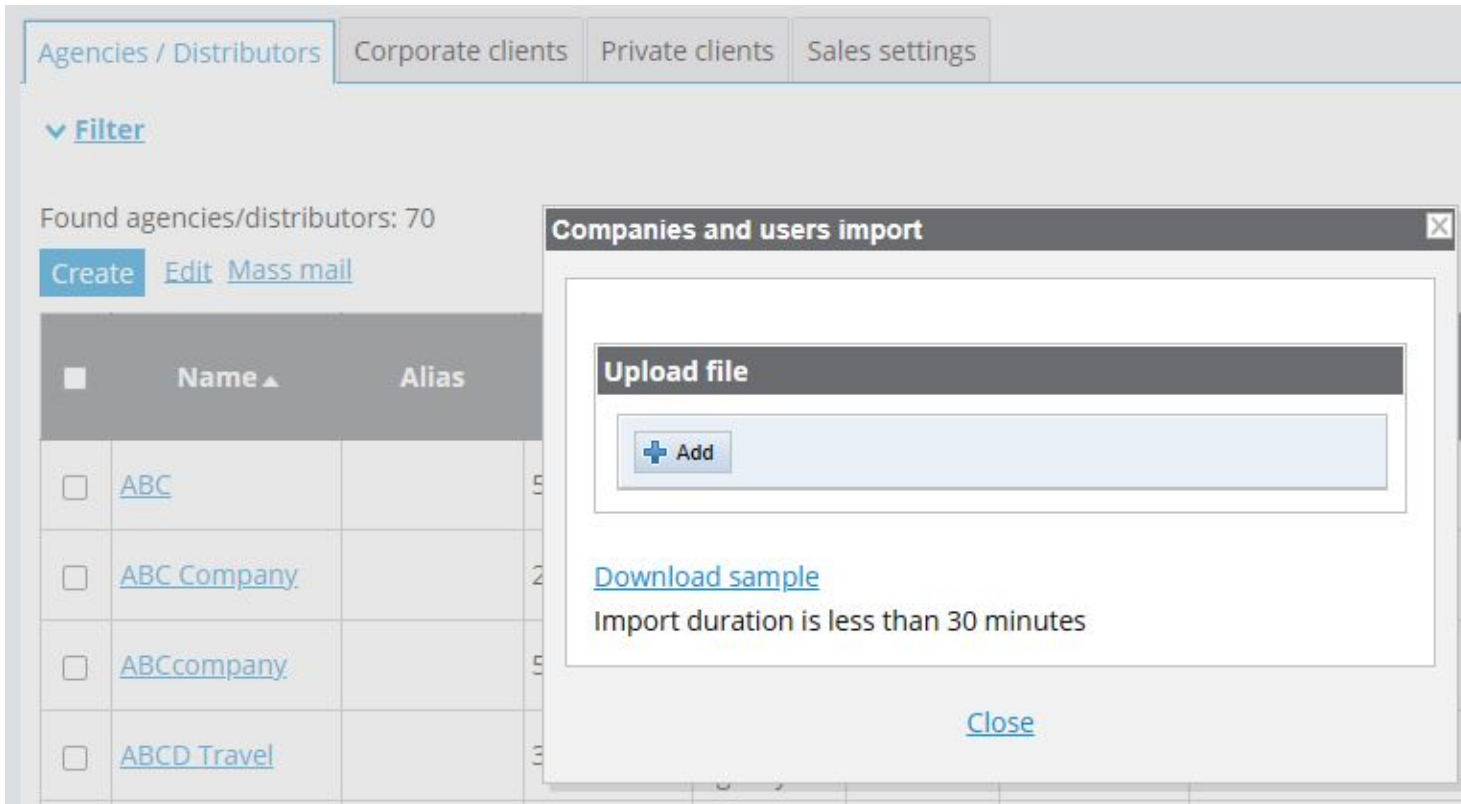

GP Solutions

If you use bulk import of Agencies, please note that now we've also added column "City" to this file.
It should coincide with the cities available in the system.

	A	B	C	D	E	F	G
1	**Company name**	**Type**	**Company external code**	**Phone**	**Email**	**Country**	**City**
2	VIP Travel	Travel agency	df345			United States	New York

3. API Changes

GP Solutions

New API methods are added:

AccommodationContracts

✓ **GET** **/channelManagers** – to get the enabled channel managers for TO1 based on import model

Search:

✓ **GET** **/partialSearchStatus –** to get partial search status

Orders:

✓ **GET** **/customProductInfo –** to get short description by service ID

✓ **PUT** **/customProductInfo/{serviceId} –** to update data on service description

BusinessIntelligence

✓ **GET** **/salesMonitoringReport –** to get sales monitoring report for selected product type and period

✓ **GET** **/detailedSalesMonitoringReport –** to get sales monitoring report for selected product type and period

GP Solutions

New parameters are added to the following API methods:

Locations:

- ✓ **GET /cruisePorts:** value "TRANSFER" is added to the "productType" parameter to the request
- ✓ **GET /airports:** "productType" is added to the request
- ✓ **GET /trainStations:** "productType" is added to the request

Booking:

- ✓ **GET /paymentOptions:** "pspBankFeeAmount" is added to the response

Orders:

- ✓ **GET /orders:**
  - ○ "commissionVatAmount" and "commissionVatRate" are added to the response
  - ○ value **"**CONFIRMATION_PROCESSING" was removed from the parameter "processStatuses"
- ✓ **POST /orderServices:** "commissionVatAmount" is added into the "bruttoPrice" array to the request and response
- ✓ **PUT /orderServices{processId}:** "commissionVatAmount" is added into the "bruttoPrice" array to the request and response

Transfers:

- ✓ **GET /searchTransfer:** parameters "departureTimeFrom", "departureTimeTo" are added to the response

DocumentTemplates:

- ✓ **GET /documentTemplates:** parameters "templateLocales", "active ", "title", "templateLocales", "documentVisibility" are added to the response

Note: see the details on API changes here: https://gp-team.atlassian.net/wiki/spaces/GPTEAPI/pages/2105769985

GP Solutions

Dear clients!

We hope that you will find these enhancements useful.

Send your questions, feedback and suggestions to our e-mail address gpte@software.travel with "Release 9.5.1" in the subject line.

Thank You For Attention!
