

GP Travel Enterprise Release 9.5.2

Presentation

September 26, 2023

Dear clients and partners!

We are happy to announce Release 9.5.2 of GP Travel Enterprise that introduces new capabilities of Internet Booking Engine, enhancements in available modules as well as overall capabilities of the system. Additionally some changes in API were done.

For scheduling the delivery dates please contact our support team.

Enhancements

New capabilities of the Website:

- ✓ Changed Tabs within Reservations
- ✓ Changed Tabs within CMS
- ✓ Extensions in Configuration of Cancellation policy and Passengers for Flights
- ✓ Improved Vouchers
- ✓ Partial Payment on Web Site
- ✓ Additional Fields for Markup and Commission % and Amount in Manual Correction
- ✓ Additional Fields for Markup and Commission in Offline Services
- ✓ Pre-set Notes
- ✓ French Version

Minor changes in Back-Office:

- ✓ Showing Room Categories in History of Availability

Enhancements

API changes:

We added new methods and parameters for the following products and functionalities:

- ✓ **Locations**
- ✓ **Contracts**
- ✓ **Packages**
- ✓ **Orders**
- ✓ **Invoices**
- ✓ **CRMCommunications**

Note: see the details on API changes here: <https://gp-team.atlassian.net/wiki/spaces/GPTEAPI/pages/2106458113>

1. New Capabilities of the Website

In order to more conveniently work with reservations, we have **re-grouped some navigation elements** within Reservation details:

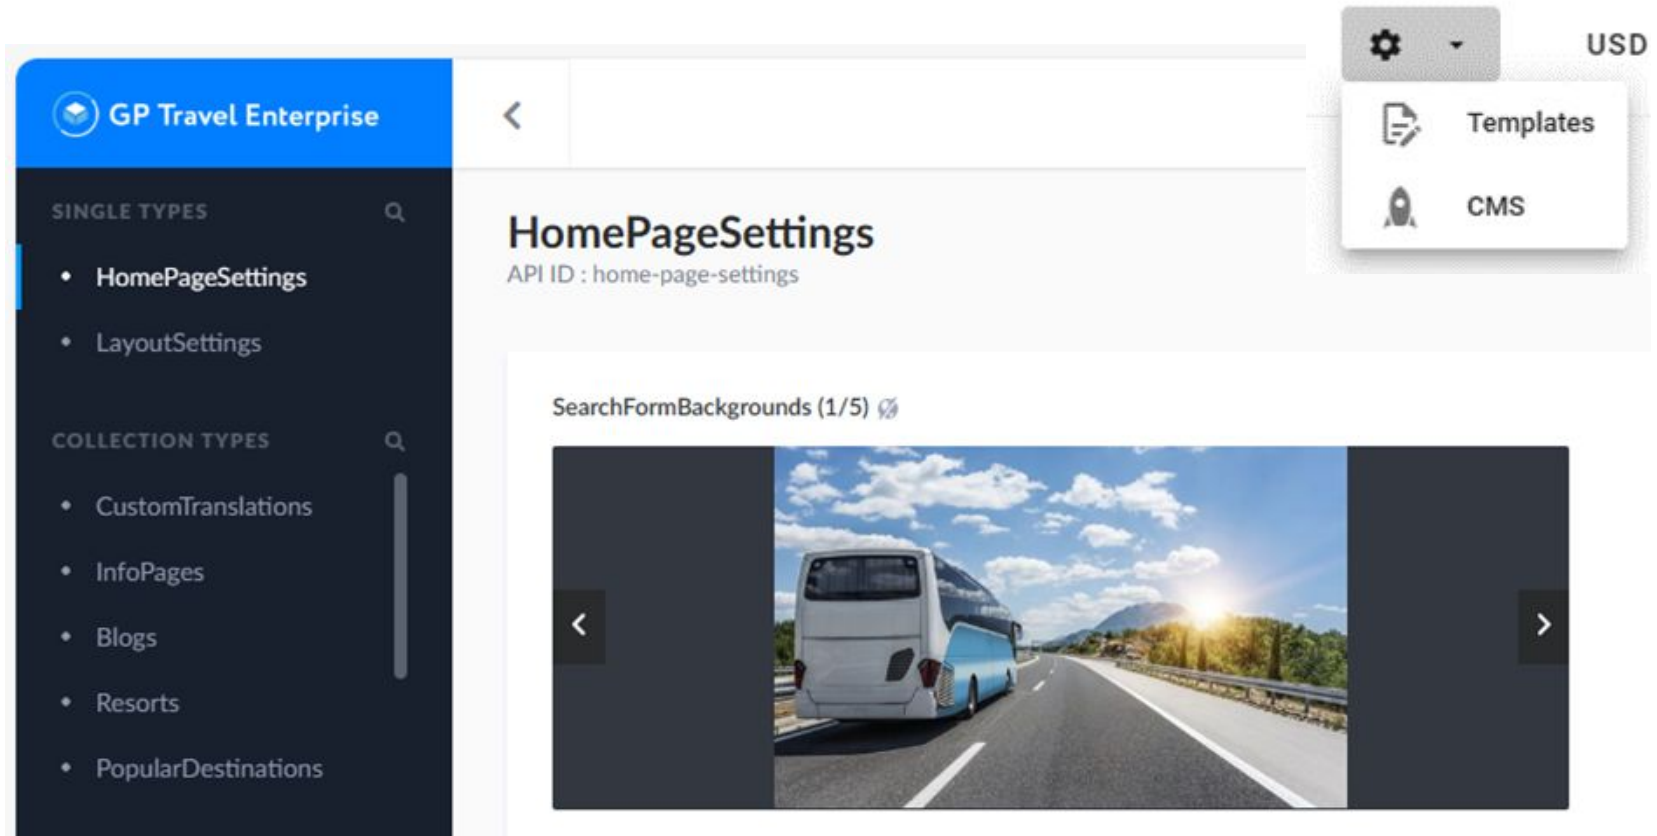

- History of changes was moved to summary section
- Tabs only have access to major modules (if they are turned on in your installation according to license)
- Display format is shown separately
- Settings where moved to config

The screenshot displays the reservation details for #10452 at Beaufort House - Knightsbridge. A modal window is open, allowing configuration of the reservation. The modal includes the following fields and options:

- Quantity of travelers: 2 (with a visible checkbox for "Visible for client")
- Quantity Free of charge (FOC): 0 (with a visible checkbox for "Visible for client")
- Price per person: €630.00
- Show prices for client:
 - For all services within trip
 - Only total
- Show cancellation policy for client:
 - For all services within trip
 - Only total
- ADD CANCEL PENALTIES (button)
- SAVE (button)

The background page shows reservation details including the hotel name, location, dates (23 Sep 2023 to 29 Sep 2023), and pricing (Supplier price: €1,152.00, Client price: €1,260.00). It also lists the reservation status as "In Progress" and "Active".

We have also made more logical **order of settings within CMS** – now you can see general settings in the top of navigation, and configuration of various lists (popular regions, info pages, etc.) below.

Access:

Main page >> Log in as TO1 supervisor or director >> CMS

Config: Cancellation policy and pax for flights

In Release 9.5.2 we have made general setting in config

- now you can set up cancellation policy extended **up to 120 days**
- and you can search&book for **up to 9 passengers for flights**

Extra Options

Adults Children
- 9 + - 0 +

We're happy to let you know that we have also extended the **Vouchers** format.

Now default vouchers for all products are in the same updated look&feel and some additional logic was added

- to upload **signature** for vouchers to show that it was “booked and paid” via tour operator and confirm it with e-signature (within your Company profile - Information tab)
- to configure **Important information** for transfers, activities and car hire – and show this information in vouchers (similar as it was done previously for hotels)

The diagram illustrates the layout of a voucher with two overlapping panels. The left panel contains the following elements:

- Logo**: A placeholder for the company logo, showing a small icon and the text "GP Travel Enterprise".
- Signature**: A placeholder for an e-signature, showing a handwritten signature.
- Comments**: A text input field for adding comments.

The right panel contains the following elements:

- Important information**: A text input field for adding important information.
- Edit**: A blue button with the text "Edit" located at the bottom left of the panel.

Here is how it looks within vouchers:

- Hotel: Beaufort House - Knightsbridge. 26.10.2023 - 28.10.2023 (2 night(s)). United Kingdom, London
Confirmed €420.00
Get the invoice on %=

Amount to be paid: **442.75**

Markup and commission % and amount

Within manual correction now you can see not only the total prices for supplier and client, but also % and amount of commission and markup that were applied. And you can adjust both.

Manual modify service

Beaufort House - Knightsbridge

WARNING!!!
Manual correction of reservation DOES NOT synchronize it with suppliers or inventory.
Please be sure that you have agreed about these changes with suppliers and updated remaining allotments manually.

SERVICES COMMUNICATIONS **INTERNAL NOTES**

← Create internal note

Select pre-set note

Family Documentation

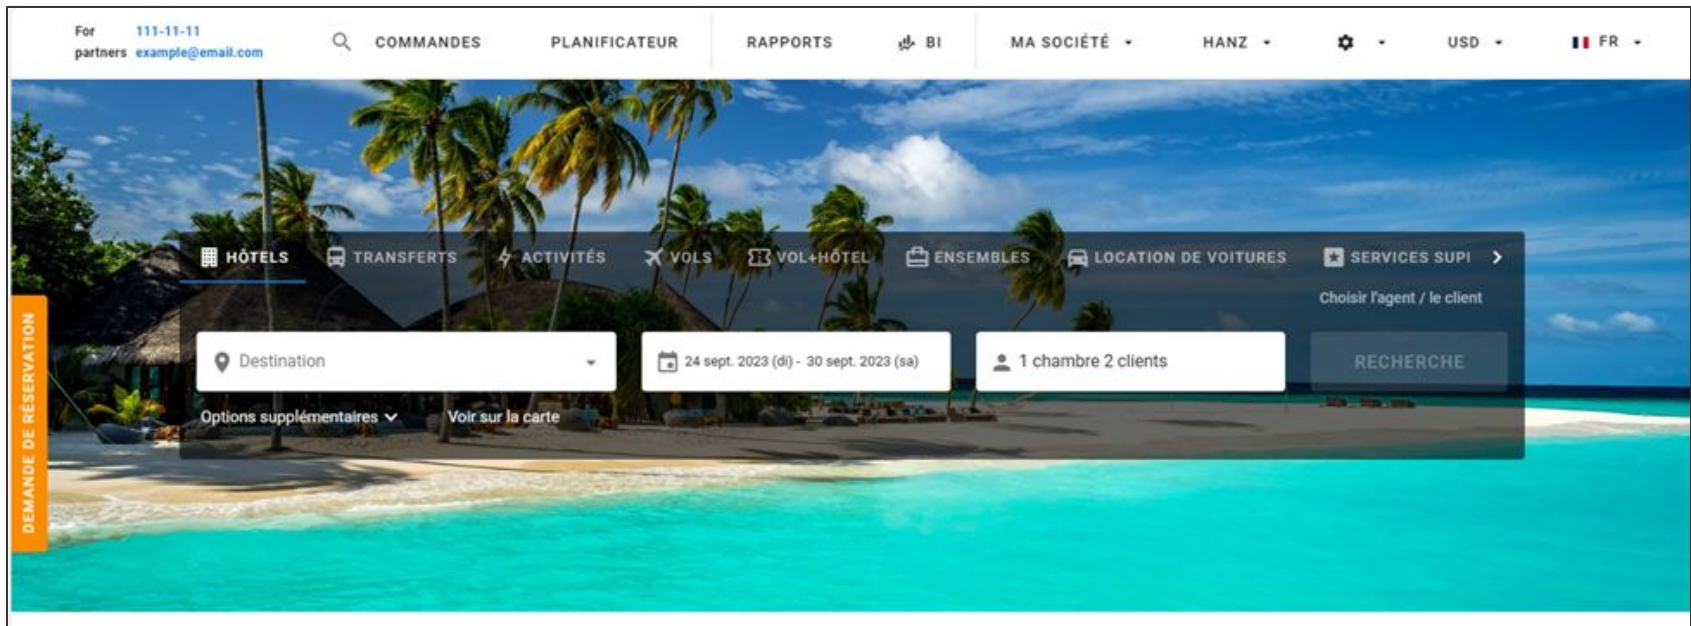

Note:

Available only if you have Extended CRM module.

Starting from 9.5.2 we also added **French language** to interface. Now you can create content in this language and switch to this locale as well.

Please, note that:

- translations cover just basic functionality, some lists are still in English (e.g. countries and cities) and some additional translations might be needed, please, validate against your business model
- if you have any requests towards translations – you're welcome to let us know OR request language resources to translate by yourself
- in order to upload content from suppliers in French – it should be requested separately (as billable request)

2. Enhancements in Back-Office

And the last minor enhancement is to show not only “All” label when user sets Stop sale within hotels availability, but full list of available categories.

Hotel "The Marble Arch Hotel"

3. API Changes

New API methods are added:

Contracts

- ✓ **GET** /salesSettings – to get actual sales settings from the contract
- ✓ **GET** /pricingRules – to get pricing rules

Changes are made to the following API methods:

Locations

- ✓ **GET** /locations: “locationType” is added to the request

Packages

- ✓ **POST** /preparePackageTourBook: parameter “manualPlaceName” is renamed to “name”

Orders:

- ✓ **GET** /orders: “serviceCreationXR” is added to service->serviceExchangeRates to the response
- ✓ **POST** /manualModification: “serviceCreationXR” is added to the request and response
- ✓ **POST** /orderServices: “serviceExchangeRates”->”serviceCreationXR” is added to the request
- ✓ **PUT** /orderServices/{processId : .+}: “serviceExchangeRates”->”serviceCreationXR” is added to the request

Invoices:

- ✓ **GET** /manualInvoices: “remark”, “bankTransferDetails” and “exchangeRatesMap” moved to “paymentInfos” array, added “payDate” and “paymentAmountInDefCurrency” parameters to the response
- ✓ **GET** /invoiceIssueInfo: “partialInvoicingAllowed” is added to the response
- ✓ **GET** /invoicePaymentMethods: “partialPaymentAllowed” is added to the response
- ✓ **GET** /manualInvoicePaymentMethods: “partialPaymentAllowed” is added to the response
- ✓ **POST** /issueInvoice: added "invoiceIssueTransactions" instead of "serviceIds"
- ✓ **PUT** /invoicePaymentByKey: “partialPaymentAmount” is added to the request
- ✓ **PUT** /manualInvoicePaymentByKey: “partialPaymentAmount” is added to the request

CRMCommunications

- ✓ **GET** /communications: “description”, “presetOnly” are added to the request, “preset” is added to the response
- ✓ **POST** /communications: “preset” is added to the request
- ✓ **PUT** /communications/{communicationId}: “preset” is added to the request

Note: see the details on API changes here: <https://gp-team.atlassian.net/wiki/spaces/GPTEAPI/pages/2106458113>

Dear clients!

We hope that you will find these enhancements useful.

Send your questions, feedback and suggestions to our e-mail address gpte@software.travel with “Release 9.5.2” in the subject line.
